(i) Charted rates based on a thirty-day cycle for monthly billing and a sixty-day cycle for bimonthly billing. Base charges are subject to proration based on actual length of billing cycle.

(b) *Monthly rate of private hydrants and sprinkler connections for unmetered industrial, etc., users.* All owners of private water hydrants and sprinklers connected within the corporate limits of the city directly to the city water system, without any meter, and serving industrial, commercial or institutional facilities, shall be charged monthly as follows:

Monthly Charge

- (1) For each hydrant . . . \$8.71
- (2) For each sprinkler connection:
 - 12-inch . . . 26.58
 - 10-inch . . . 19.71
 - 8-inch . . . 13.75
 - 6-inch . . . 8.71
 - 4-inch . . . 5.04
 - 3-inch . . . 3.67
 - 2-inch . . . 3.67

For sprinkler connections in excess of the above schedule, an annual charge of three dollars (\$3.00) per inch will be made in addition to the basic charge of twenty-six dollars and fifty eight cents (\$26.58) per inch for twelve-inch connections.

The annual rate of unmetered private hydrants and sprinklers outside the city shall be one and one-half (1 1/2) times the rates charged inside the corporate limits.

(c) *Certain residential properties exempt from annual fire hydrant charge.* Private fire hydrants serving residential properties, such as apartment projects, condominium complexes and townhouse complexes, or private residences abutting on a private street on which there are situated fire hydrants, will not be subject to an annual fire hydrant charge since the cost of providing adequate fire defenses for residential property is included in the user charges paid by the occupants of such residential property.

(d) *Use of private fire hydrant without city's permission prohibited.* It shall be unlawful for any person to use a private fire hydrant connected with the city's water system without any meter, regardless of whether it is situated in an industrial, commercial, institutional or

residential zone, unless and until permission has been granted by the city in accordance with Section 17 of this resolution.

(e) *Rate for filling privately owned swimming pools.* In each instance where the city is called upon to fill a privately owned swimming pool (that is, any swimming pool not owned by the City of Winston-Salem) from a fire hydrant or other connection requiring the services of one or more city employees, a special charge of thirty dollars (\$30.00) per hour per employee, minimum charge sixty dollars (\$60.00), shall be made for such service. The charge shall be computed from the time the city employee or employees leave his or their base of operations until such employee or employees return thereto. This charge shall be an addition to the regular charge for the water used at the then current water rates.

(f) *Sale of water at treatment plants.* The city shall also make water available for sale to the public at the three (3) water treatment plants and there will be a special charge of twenty dollars (\$20.00). This charge will be in addition to the regular charge for the water used at the then-current water rates.

Sec. 31. Water rates--Schedule B (Feasibility, Annexed Feasibility, Outside County Feasibility)

(a) *Applicability.* Rate Schedule B shall apply in the following situations:

(I) Feasibility Rate, Minimum Consumptions & Base Charges:

- (1) Connections which were subject to Schedule B rates prior to the adoption of this resolution (June 12, 1978);
- (2) Connections which are made in accordance with Water Line Extension for Subdivisions (Section 64(c)(2) of this resolution) outside the municipal limits of the City of Winston-Salem, Village of Clemmons, or the Town of Rural Hall;
- (3) Connections which are made to any water mains extended under the Winston-Salem / Forsyth County Utility Commission Feasibility Extension Plan (Section 64(b) of this resolution) will pay feasibility rates as set forth below:
