

# Alphabet Soup

Transportation Planners love their acronyms, and they have six of them in need of your feedback, starting with the LRTP (Long Range Transportation Plan), looking at the need for streets and highways, bike lanes, sidewalks, public transportation (including the Piedmont Authority for Regional Transportation), and more through 2035.

Also available will be drafts of the AQCDR (Air Quality Conformity Determination Report), the EJP (Environmental Justice Plan), the CMP (Congestion Management Processes) plan, portions of the CTP (Comprehensive Transportation Plan) and the NEEDS list of priority projects for the MPO (Metropolitan Planning Organization).

You can review the documents at these locations:
