Project Description: Bus Shelter Solar Panels

SPOT ID: T171873

Project Mode: Transit
Submission Type: Existing
Cost to NCDOT: $114,750
Project Description: This project provides for general facility maintenance for the Hampton Haith Administration Building, the Clark Campbell Transportation Center, and the Maintenance Department.
**Project Description:** Provide passenger amenities such as bus shelters. The transit authority plans to use these funds to purchase bus shelters. The route and schedule committee would determine the locations for new shelters.
Project Description: Make improvements to existing terminal building, entrance road, and construction of a new hangar. Project would also include the demolition of old hangar, old cargo building and office building. After improvements are made, the fixed based operator (FBO) would relocate to terminal which would become the front door to the community. Project included on pen and ink.
**Project Description:** Make improvements to terminal building and entrance road. Project would also include the demolition of old air cargo building. After improvements are made, the terminal would become the front door to the community. Project included on pen and ink change to Airport Layout Plan (ALP).
