Welcome

This map is one of the many efforts in the Winston-Salem Urban Area to create bike-friendly facilities and to encourage bicycling in the region. Bicycle enthusiasts and those new to bicycling should review the many resources available to help you determine if a particular road or portion of a road is bike-friendly. The guidelines and standards on this map can be used as a check list and may be a useful tool in determining the most bike-friendly roads in the region.

The Winston-Salem Urban Area Bicycle Map is one of the many efforts in the region to create bike-friendly facilities and to encourage bicycling in the region. Bicycle enthusiasts and those new to bicycling should review the many resources available to help you determine if a particular road or portion of a road is bike-friendly. The guidelines and standards on this map can be used as a check list and may be a useful tool in determining the most bike-friendly roads in the region.

Bike shops

Bike shops can be a valuable resource for information and support for bicycling. Many bike shops offer repairs, sales, and information about local riding conditions. It is recommended that you visit several bike shops in the region to determine which one is right for you.

Other tips

Bike helmets are strongly recommended for all riders. It is also recommended that you carry a helmet while riding. The WSTA recommends that you always carry a helmet in your bicycle bag. The map includes bike routes that have been designated as bike-friendly. These routes are indicated on the map by a yellow line with a bicycle symbol.
