## B. Project Overview

Completed by ruth@citywithdwellings.org on 11/19/2021 8:11 AM

**Case Id:** 14429

**Name:** City with Dwellings Street Outreach Specialist -

**Address:** \*No Address Assigned

---

## B. Project Overview

---

Please provide the following information.

### APPROACH (7 POINTS)

#### **B.1. Provide a concise description of the proposed project/program, indicating specifically how City funds will be used. Briefly, what are the goals/objectives of the project/program?**

We ask that the City expand its funding to include all three members of City with Dwellings' street outreach core team. City with Dwellings (CwD), in partnership with The Empowerment Project, Bethesda Center, and the Coordinated Intake Center (CiC), has identified by name 245 street-homeless persons currently living on the streets, in encampments, or in other places not meant for human habitation. We meet our neighbors where they are and, over time, build mutual, trusting relationships which help facilitate a person's transition to mainstream services and permanent housing. We work to decrease unsheltered homelessness, helping provide a pathway for a return to stable, safe, and affordable housing. A robust, collaborative, fully-funded street outreach program will only strengthen community efforts to end homelessness.

CwD's outreach team, with assistance from peer support specialists, an HMIS data specialist, administrative staff, and community partners, builds relationships with people experiencing homelessness in order to reach people who might otherwise not seek assistance, work to meet their basic needs, intervene in crises, and connect these unsheltered citizens with essential services, including health care and housing.

Our outreach staff form a multi-disciplinary team that proactively engages and encourages homeless individuals to accept and receive services to improve their immediate circumstances and, over time, to resolve their homelessness. The core team includes a Director of Diversion & Outreach, an Outreach & Diversion Specialist, and a Street Outreach & Transportation Specialist. Their job descriptions have been uploaded in Section F.

Major portions of these positions have been funded during 2020 and 2021 by City ESG, CDBG CV, and State ESG CV funds. The last of this funding will be disbursed by June 30, 2022.

#### **B.2. How will a participant access the proposed project/program, use the services, and derive a beneficial outcome from participation?**

CwD serves as both an entry point and a primary way for individuals experiencing homelessness to access consistent supportive services.

Our unsheltered neighbors are able to access CwD's street outreach services in at least four ways:

1) One-on-one field work: CwD's outreach staff goes out into the community several times a week to check on and engage unsheltered individuals. Often these visits result in CwD providing assistance and transportation support to connect unsheltered individuals to resources.

2) Referrals: Community partners such as downtown faith communities and businesses, law enforcement agencies, hospitals, The Empowerment Project, The United Way's Housing Matters Team, and our partner agencies in the

Continuum of Care all refer individuals to CwD's Street Outreach program.

3) CwD's Overflow Shelter: The Winter Emergency Overflow Shelter has historically been an entry point for persons who are homeless or in crisis and often the first step a person takes to resolve their homelessness. CwD checked in 568 men and women in the 2019/20 winter shelter season. We provided much needed shelter for 206 persons and placed 362 in local shelters. For the FY 20-21 COVID overflow season, City with Dwellings had contact with 136 unique individuals. Of these, 45 were provided shelter in the white flag center, 51 were transitioned to the CV funded hotel winter shelter, 38 were offered diversion to the year-round shelters, and 2 were diverted to family/friends or other resources within their natural support system.

4) Community First Center: CwD's Community First Center, a drop-in day center conveniently located in downtown Winston-Salem, is a critical point of access which encourages relationships and provides consistent community for our city's most vulnerable citizens. Our doors have remained open throughout the pandemic, and we remain committed to helping individuals re-enter the housing process, serving as a hub for mail, and offering access to computers, telephones and one-on-one assistance. Our staff and volunteers support persons in obtaining IDs and vital documents necessary to access resources. As the pandemic recedes, we will resume group programs and increase the number of people we can invite into the space safely. Until then, the CFC will continue to be a hub of connection and care for the most vulnerable in the community.

**B.3. Describe the unmet need that the proposed project/program seeks to address. Include data supporting the need.**

The 2021 City of Winston-Salem Point in Time Count identified 462 individuals experiencing homelessness on the streets, in emergency shelter, or transitional housing on January 27th, 2021. Of these, 146 individuals were identified as experiencing chronic homelessness.

Street outreach is vital to the work of combatting homelessness. Within the past year, over 1,600 people have accessed homeless services programs in Winston-Salem and Forsyth County. So far this year, 478 unique individuals have visited our Community First Center for assistance and resources. Outreach staff are currently connecting with 245 unsheltered individuals in our community, and that number continues to grow.

Prior to FY2021, only one organization, The Empowerment Project, focused on street outreach work in The Winston-Salem Forsyth County Continuum of Care (CoC). City with Dwellings has always engaged with persons who are street homeless, but did not have a dedicated staff member focused on that population prior to receiving FY21 community agency funding.

The pandemic's long-term effects on the overall homeless population are still unknown, but the outlook is grim. Traditional congregant shelters have reduced capacity in response to elevated risk during the pandemic. A significant number of homeless individuals remain unsheltered and disconnected from services. Without access, these individuals are unable to receive medical care, peer support, housing assistance, mental health services, and more. Our unsheltered neighbors struggle to meet their basic needs of food, clothing and shelter, and are more likely to be victims of physical or sexual assault.

Evictions are rising. While evictions in Winston-Salem declined 70% from the pre-pandemic average of 880 filings per month as the eviction moratorium began, experts anticipate that in 2022, the number of evictions will surpass that pre-pandemic average. As housing instability rises along with evictions, individuals and families struggle with increased mental health challenges, and loss of stable housing, education, and employment.

City with Dwellings works with the Community Intake Center (CIC) to maintain a by-name list of chronically homeless

individuals, who are frequent users of emergency medical services, require interventions by the police, and burden the courts and jails with petty crime. Based on conservative estimates, without intervention, these individuals can collectively accrue over \$2.4 million in hospital costs annually (according to Wake Forest Baptist Health). A review of mortality causes among homeless populations in the U.S. found that homeless people have a much shorter average life span, hovering around 50 years.

Homelessness has a ripple effect throughout the community, impacting the availability of healthcare resources, crime and safety, the workforce, and the use of tax dollars. HUD has estimated that the government spends at least \$40,000 per homeless person per year. A California study examined the effects of supportive housing on homeless service utilization and costs. Across all the services examined, the associated costs for public services consumed in the year after receipt of supportive housing, especially medical and mental health services, declined by close to 60 percent.

There is much work to be done. CwD's connection of our vulnerable neighbors to housing benefits all of us as we work to break the cycle of homelessness, one person at a time.

## **COLLABORATION (6 POINTS)**

### **B.4. Describe any specific collaborative relationships with other organizations (public or private) and how they will impact the project/program. How will collaboration contribute to the planning, implementation, operation, oversight, and performance measurement of the proposed project/program?**

Collaboration among the CoC partner agencies remains high even as the pandemic recedes. For CwD, this includes partnerships with existing full time shelters, faith communities, city and county services, health providers, and other nonprofit organizations serving individuals experiencing homelessness. These collaborations contribute significantly to program efficiency and data collection, which allows for coordinated assessment, targeted services, and measurable progress.

Use of the Housing Management Information System (HMIS) provides the CoC with a central collection of data and effective management. With a dedicated part-time data assistant to manage both the qualitative and quantitative data collected in the HMIS, City with Dwellings can identify, target, and track individuals as they move through varying stages from street homelessness, sheltered, and housed.

Our outreach team's collaboration with The Empowerment Project and Bethesda Center street outreach teams means coordinated efforts help ensure engagement with the 245 unsheltered or street homeless persons. This accurate, up-to-date street count serves as the Point in Time Count for our community, an exception HUD makes for only a handful of communities nationwide.

Our Street Outreach and Diversion team also works with our CoC partners to identify and address the healthcare needs of our homeless population. According to recent research by the National Institutes of Health, individuals experiencing homelessness are more susceptible to diseases, have less access to health care, and are more difficult to treat. These conditions include chronic disease, mental health, and the current risk of COVID-19, made even more dangerous and unpredictable in a congregant shelter or street homeless situation. CwD's street outreach, in collaboration with CoC partners and first responders such as Daymark Crisis Line, Community Care Paramedics, the Winston-Salem Police Department, and the Forsyth County Sheriff's Department, work together to provide access to preventive and primary medical care and reduce the community impact of inadequate medical care for individuals experiencing homelessness.

## C. Strategy and Performance

Completed by ruth@citywithdwellings.org on 11/19/2021 9:34 AM

Case Id: 14429

Name: City with Dwellings Street Outreach Specialist -

Address: \*No Address Assigned

---

## C. Strategy and Performance

---

Please provide the following information.

### STRATEGY (5 POINTS)

C.1. The City of Winston-Salem's strategic priorities, adopted most recently in the [2017-2021 Strategic Plan \(2019 Update\)](#) and under review for adoption by City Council for FY 2022 - FY 2025 Strategic Plan, are used as guiding principles to establish community priorities based on the vision, mission, and values set forward by the Mayor and City Council.

Indicate which of the City's strategic focus areas your program aligns with best (select one):

Safe and Secure Community

C.2. Select the service area(s) that your project/program relates to:

- Housing/Homelessness
- Economic Development
- Construction Rehabilitation
- Poverty Reduction
- Arts and Culture
- Youth
- Public Safety
- Transportation
- Other

### PERFORMANCE (15 POINTS)

C.3. Describe the system to be used to track participant and program data. List any key reports and their frequency that will be used to capture project/program performance.

City with Dwellings tracks the outreach team's engagement with unsheltered homeless person in the Homeless Management Information System (HMIS), information which is shared with the Winston-Salem/Forsyth County's Continuum of Care. CwD recently hired a part-time data assistant to manage both qualitative and quantitative data gathered by CwD's Diversion and Outreach team. The data assistant utilizes the Homeless Management Information System (HMIS) to capture CwD's data. Accurate data collection enables CwD and the Community Intake Center to assess, prioritize, and determine the most appropriate response to each homeless person's immediate housing needs. This system of coordinated entry is recognized as a best practice which can improve collaboration and efficiency within systems. Each year, more CwD staff are trained to use HMIS and to improve their data accuracy, due in large part to the support of Laura Lama, the HMIS Local System Administrator with the City's Community Development

Printed By: Rene Williams on 1/28/2022

5 of 30

Department.

Additional information is gathered on diversion and transportation, as well as overflow shelter and CFC usage. Reports documenting the Street Outreach team's activities and the number of individuals they engage with are shared with the city each month per the FY22 grant. With the recent addition of a new executive director, CwD plans to explore additional ways to use data and tracking to improve our service and outcomes.

**C.4. Explain the steps that will be taken if the stated program goals provided in C.3. are not achieved.**

The goal of City with Dwellings is to build community consistent with restorative practices to end homelessness in Winston-Salem, one person at a time, with a welcoming spirit, low barrier access, and a person-centered approach. The Outreach Team uses this approach when working with unsheltered homeless individuals, will engage with a minimum of 20 persons each month, and track engagement through all CwD programs. A contact log will be submitted to the city each month. Information related to unsheltered community members will be entered into HMIS by the Data Assistant. If goals are not achieved then data and engagement strategies will be evaluated by the Executive Director, Director of Diversion and Outreach, and staff and altered if appropriate.

**Attach participant/program data sample report**

**Participant/Program Data Sample Report \*Required**

Sample-Outreach-Logs-2021.pdf

**C.5. Use the chart below to show how your agency measures program effectiveness. List goals, activities, and performance measures you will use to evaluate services, facilities, and programs that will be funded by the City. Performance measures can be quantitative and/or narrative.**

**Applicants will be reimbursed funds based upon timely submissions of eligible invoices. These invoices should describe services rendered and should align with the goals and objectives cited here. Where outcomes do not align with goals, please be prepared to provide a written summary of shortcomings.**

Stated Program Goals	Program Activities in Support of Goals	FY 20-21 Previous Year Results	FY 21-22 Current Year Projected Results	FY 22-23 Next Year Anticipated Results
To build relationships with homeless persons who might otherwise not seek assistance.	Perform weekly check-ins with unsheltered individuals in encampments, under bridges, or wherever they reside.  Get to know individuals experiencing homelessness at our drop-in center (CFC),	Street outreach staff identified and engaged 165 unsheltered homeless individuals.  564 unique CFC visitors.	Over 1500 contacts/check-ins with an average of 245 unsheltered homeless individuals.  Expected number of unique visitors to CFC in 2021: 575. Staff see an average of 10 people each week from referrals.	We expect an increase in the number of unsheltered homeless individuals as the pandemic recedes.  We expect the number of visitors and referrals to the CFC to increase as well.

	by referral, or in the streets.			
Work to meet basic needs and connect these unsheltered citizens with essential services, including medical and mental health care, and shelter.	<p>Connect homeless citizens with food, clothing, and shelter.</p> <p>Transport individuals to medical and other appointments, clothing closets, food pantries, or year-round shelters.</p> <p>Operate winter emergency overflow shelter.</p> <p>Operate monthly foot clinic in partnership with Atrium Health.</p> <p>Host community partners in the CFC to connect people with critical resources.</p>	<p>235 people transported to food pantries, clothing closets, appointments during pandemic, approximately 7500 miles.</p> <p>CwD checked in 568 men and women in the 2019/20 winter shelter season. FY 21-22 Current Year Projected Results	1,500	2,000
FY 22-23 Next Year Anticipated Results	1,865	2,500

**C.6. FY 20-21 Program Accomplishments**

CwD strives to be an organization that adapts and responds to changing circumstances. The COVID-19 pandemic

Printed By: Rene Williams on 1/28/2022

served as a catalyst to inspire us not only to respond to the issues of homelessness, but to also create bold solutions to connect our most vulnerable neighbors to safe shelter and opportunities for better living.

Last year, COVID-19 threatened us all and CwD staff sprang into action to protect our most vulnerable neighbors. Staff geared up in makeshift PPE to transport homeless individuals from the hospital to a hotel for recovery. The risk of an outbreak in congregate shelters made creative solutions necessary. "Presumptive positive" became our watchwords, and our hands smelled of bleach from the constant cleaning. Despite the risk, we doubled down on our resolve to care for those in our community experiencing homelessness. Whether it was providing access to computers, reconnecting individuals with family, or developing a strategy to keep medically fragile people safely sheltered in a local hotel, we never stopped working on behalf of the most vulnerable people in our community.

Thanks to support from individuals, faith communities, government and private funders, and undaunted staff and volunteers, we were able to focus on solutions during a turbulent time. We expanded our Diversion and Street Outreach efforts, helped create the Medically Fragile Shelter, designed and operated a pandemic-appropriate Winter Shelter Project, and kept our doors at the Community First Center open.

A Few Highlights:

\*CwD team partnered with the City of Winston-Salem, The Bethesda Center, Samaritan Ministries and CwD volunteers in the creation and operation of a medically fragile shelter for 65 homeless individuals with conditions susceptible to the complications of COVID-19. Approximately 45 were able to transition into supportive housing.

\* Fifty-one (51) individuals each night from December 1 to March 31 were housed in a local motel, and our community and church partners provided hot meals three times a day. Inspired by our HEARRT project, peer support specialists worked onsite to connect our guests with resources and to help them continue on the path to permanent housing. Because the rooms are equipped with small kitchens, this shelter model offered a unique opportunity to help our guests acquire the life skills necessary for independent living, and 19 transitioned to housing.

\*Our drop-in day center (CFC) hosted 564 unique individuals in 2020 and 478 to-date in 2021. We helped 227 people obtain IDs, 147 get copies of birth certificates, and assisted 166 persons in obtaining their Social Security cards. These are all documents necessary to access benefits and housing. We gave away 162 move-in kits to newly-housed neighbors.

Over 800 people attended our Wednesday afternoon housing huddles, where both homeless and unstably housed individuals learn how to navigate the housing process and get individualized assistance. Recently, we worked with housing case managers to create a referral system that ensures that people seeking housing go to the right resources for the help they need.

We have engaged in innovative, impactful, and collaborative work supporting individuals experiencing homelessness. And throughout this pandemic season, we've witnessed a big-hearted desire among our city and community leaders to care for our most vulnerable citizens.

### **C.7. FY 22-23 Key Objectives**

CwD continues its primary mission to end homelessness by building supportive, sustained community among people experiencing homelessness and their advocates.

Our street outreach staff will continue working with partner providers in the Continuum of

Care to identify individuals who desperately need shelter and are not likely to find it elsewhere.

We'll operate our winter emergency overflow shelter for 50+ individuals each night from December 15 to March 15 in partnership with our community and church partners. On the winter nights when temperatures and weather conditions are particularly dangerous, CwD will work with the city of Winston-Salem to coordinate emergency shelter.

We'll continue our work with the dozens of individuals who can't connect with permanent shelter during the winter months. Staff and volunteers at the Community First Center will work with the Diversion team to support these individuals with resources and community.

We will keep meeting our neighbors where they are, building mutual, trusting relationships over time which help facilitate a person's transition to mainstream services and permanent housing. We will work tirelessly to decrease unsheltered homelessness, helping provide a pathway for a return to stable, safe, and affordable housing.

## D. Organizational Capacity

Completed by ruth@citywithdwellings.org on 11/19/2021 1:06 PM

Case Id: 14429

Name: City with Dwellings Street Outreach Specialist -

Address: \*No Address Assigned

---

### D. Organizational Capacity

---

Please provide the following information.

#### MISSION (5 POINTS)

**D.1. Provide an overview of the organization. Include the organization's mission statement and the major services, programs, and activities provided. How does the proposed project/program help advance the mission of your organization?**

City with Dwellings works to end the crisis of homelessness in Winston-Salem and Forsyth County, building supportive, sustained community with individuals experiencing homelessness. Our work began in 2012-2013 in response to the critical need for winter emergency shelter in WS/FC. CwD mobilized faith communities, community groups and civic organizations to create a multi-site shelter outreach. During the pandemic, increased funding enabled us to expand our services. We now provide programs and services across the homeless services spectrum.

We achieve our mission by:

\* Identifying and supporting our unsheltered homeless neighbors through our Street Outreach and Diversion efforts. CwD believes in meeting people where they are, and helping them get where they want to be. Sometimes, that need is immediate clothing, food, and shelter, and sometimes, it's reconnecting individuals with friends, family, and community that supports their housing and health goals. CwD's dedicated Outreach specialists work closely with case managers, ACT teams, guardians, the Winston-Salem Police Department, emergency services, hospitals, and mental health professionals to consistently offer care to the growing population of unsheltered individuals living in encampments, abandoned building, under bridges and other places unfit for human habitation. Diversion strategies became more critical at the onset of the pandemic. Congregant shelters reduced their numbers to lower risk, and CwD staff increased their efforts to help individuals avoid entering the shelter system.

\*Connecting resources via the the Community First Center (CFC). The Center opened in spring 2017 and continues to be a year-round portal of entry for homeless individuals trying to access resources and begin the housing process. The CFC's doors have remained open throughout the pandemic and continues to be a hub of connection and care for the most vulnerable in the community.

\*Providing Emergency Overflow Shelter. Since 2012 and throughout the pandemic, our Outreach team has worked with partner providers in the CoC to identify highly vulnerable and hard-to-serve homeless individuals who need shelter and are not likely to find it elsewhere. This winter, CwD will shelter between 40-50 individuals each night from December 15 to March 15 in local churches. Community and church volunteers provide hot meals and supportive care.

\*Supporting our vulnerable neighbors through the HEARRT Project. CwD, The Empowerment Project, and the United Way's Housing Matters Initiative joined forces in 2019 to create the HEARRT (Housing Emergency Assistance Rapid Response Team) Project, which focuses on chronically homeless people in our community who have been living on the streets for an extended period of time. It is an immediate intervention for housing the most highly vulnerable and chronically homeless persons in our community. CwD's Peer Support Specialist lives onsite to provide 24-hour

Printed By: Rene Williams on 1/28/2022

11 of 30

assistance to five residents living in HEARRT units.

All of CwD's programs support the holistic and integrative approach central to the mission of CwD, and increase our knowledge and effectiveness for current and future work.

## **FUNCTION (5 POINTS)**

### **D.2. How long has your organization been in operation?**

Nine years; we received our 501(c)3 exempt status in 2017.

### **D.3. How does your organization benefit and serve the City of Winston-Salem and its citizens?**

City with Dwellings uses a community-building model in our approach to working with homeless individuals in its programs. Our programs benefit the City of Winston-Salem and its citizens in four significant ways.

1) CwD provides support year-round for individuals experiencing homelessness at the Community First Center (CFC), our drop-in day center. In 2020, 564 unique individuals (down from over 950 in pre-pandemic 2019) visited the CFC for support navigating a complex system of housing, health and employment resources. The CFC receives mail and assists individuals in obtaining birth certificates and identification required to start the housing process. Post-COVID plans include a variety of programs that engage individuals in practical life-skills as well as innovative art, gardening, and music therapy experiences.

2) Another critical way CwD's work benefits the city and its citizens is through Street Outreach, led by the Director of Diversion & Outreach. One of CwD's greatest strengths, this role facilitates effective collaboration with existing resource providers and meaningful engagement with individuals experiencing homelessness. CwD is the only homeless service agency in the area that provides transportation to the DMV, Social Security office and existing resource providers as part of our outreach efforts. This person-centered approach works to maximize, not duplicate, the resources and services available in this community. Street Outreach helps fill gaps between service providers and the street/shelter population.

3) Since 2012, CwD has provided Winter Emergency Overflow Shelter, partnering with local congregations to shelter as many as 90 men and women each night. CwD checked in 568 men and women in the FY 19-20 overflow season and provided much-needed shelter for 206 persons, while placing 362 in local shelters. For the FY 20-21 COVID overflow season, CwD helped 136 unique individuals, providing 45 white flag shelter, transitioning 51 to the CV funded hotel winter shelter, offering 38 diversion to the year-round shelters, and diverting 2 to family or friends. CwD plans to operate three shelters for FY21-22, providing emergency shelter for up to 50 or more individuals.

Finally, CwD's programs are based on a highly participatory community model, connecting individuals to available resources which address his or her unique situation, made possible by a strong volunteer network. Since CwD's inception more than 2,500 individuals have volunteered in one of our programs, which offer a unique platform that brings volunteers who have landed jobs, maintained a lease, or managed debt into community with individuals in crisis. Building trusting relationships and sharing social capital helps support individuals in their efforts to regain stability, and achieve goals. CwD's work with volunteers and persons experiencing homelessness makes a significant positive impact in the lives of individuals in crisis that can't be measured in dollars but in accomplished goals, accountability, a sense of belonging, and lives changed by greater stability, health and self-determination.

Our community-building model assists individuals experiencing homelessness while engaging the wider community in this work, and results in a stronger, better city for all of Winston-Salem's citizens.

**STRUCTURE (5 POINTS)****D.4. In the chart below, list key personnel and executive staff involved in the proposed project/program.**

<b>Position Title</b>	<b>Activities/Inputs</b>	<b>Total Work Hours Per Week</b>	<b>% of hours proposed to be funded</b>
Director of Diversion & Outreach	Team leader; oversees all outreach efforts and staff, including outreach activities based in our day shelter, the Community First Center, as well as collaborative resourcing with community partners and agencies, and direct street outreach work in the community with unsheltered neighbors. Job description is attached in Section F.	40	100.00 %
Outreach & Diversion Specialist	Provides direct guest services in the field and in the Community First Center. Connects those experiencing homelessness with much-needed resources and diverts others away from shelters and homelessness. Assist homeless individuals in obtaining vital documents in order to start housing process. Job description attached in Section F.	40	91.00 %
Transportation and Street Outreach Specialist	Provides immediate care to unsheltered homeless people who are unwilling or unable to access emergency services. Coordinates transportation to assist individuals in keeping medical and housing-related appointments. Coordinate trips to clothing closets, food pantries, and other resources. Job description attached in Section F.	40	91.00 %
Peer Outreach Specialist	The Peer Outreach Specialist is a certified peer support specialist who has experienced homelessness themselves. This position provides support and assistance to individuals currently experiencing homelessness, with an emphasis on women's health and wellness, by offering one-on-one resource navigation and case coordination throughout the housing process.	20	0.00 %
Data Specialist	The HMIS Data Specialist assists CwD staff with maintaining the accuracy and integrity of the required data collection for clients receiving services, ongoing updates, data entry, and file management as necessary.	15	0.00 %
Community Manager	The Community Manager serves as a guest relations specialist and facility and program manager, offering radical hospitality to all those visiting the Community First Center. Connects guests to resources, coordinates volunteer schedules and responsibilities, arranges for programming and special events.	40	0.00 %
Organizational Administrator	Our administrator coordinates with the City of Winston-Salem and other funders to ensure we are compliant and timely in our invoicing and paperwork for grant requirements.	32	0.00 %

**D.5. List all executive staff and their compensation (other than per diem).**

Executive Staff Name	Title/Role	Compensation	% of Hours Proposed to be Funded
Ruth Cole Burcaw	Executive Director	\$75,000.00	0.00 %

D.7. Please complete the Diversity of Employment and the Employment Profile below. See the [Request for Proposals \(RFP\)](#) for definitions of position types used in the Employment Profile.

**Describe the hiring process and how it is structured to provide the most diverse candidate pool. Best practices for accessing a diverse hiring process and candidate pool include:**

Positions and job descriptions are approved by our Board of Directors. Jobs are posted on our organizational website, advertised through numerous job boards and social media, and shared with the City of Winston-Salem, United Way, Continuum of Care agencies, and local colleges and universities. Interested candidates are evaluated for their ability to perform the functions required and relative experience and if appropriate, interviewed by a diverse team of board members and staff. There is no discrimination based on gender, race religion, sexual orientation or ethnicity. The candidate chosen for the position is recommended for board approval.

**Please enter the total number of Full-Time Positions and Employees you have in the table below, as well as the employee's appropriate race/ethnicity and gender identity.**

	Male - White	Male - Black	Male - Other	Female - White	Female - Black	Female - Other

**ABILITY (5 POINTS)**

**D.11. If this is an application for new funding, please describe the steps your organization will take to establish an action plan for successful program launch, including appropriate stakeholder training and coordination. Articulate a clear methodology for service delivery within the context of established goals and include a timeline of key action items and approximate dates for delivery.**

This funding expands CwD's existing capacity to provide critical services for the growing population of homeless men and women in our community by extending funding for critical street outreach beyond June of 2022. Long-range plans for FY22-23 include stabilization of core street outreach team, exploration of additional team, extending street outreach hours to include weeknight and weekend coverage, and formalization of consistent performance measures and data practices.

**D.12. Describe your organizations' past success with flexibly responding to unforeseen events, which had the potential to negatively impact deliverables. What were best practices learned, if any? How would you successfully use these practices with the proposed program, if necessary?**

The winter shelter season of 2020-21 was unlike anything CwD has done before, as our partner sites could not safely provide shelter due to the pandemic. For the 2020-21 winter shelter, our street outreach team worked with partner providers in the CoC to identify highly vulnerable and hard to serve homeless individuals who needed shelter and were not likely to find it elsewhere. CwD sheltered between 40-50 individuals each night from December 1 to March 31 in a local motel. Community and church partners provided three hot meals a day. Inspired by our HEARRT project, peer support specialists were at the motel to connect guests with resources and to help them continue on the path to permanent housing.

We learned that we can adapt successfully to changing circumstances with good partners and a focus on our mission. CwD's agility, nimbleness, and action bias are defining features of our organization, and present in all of our work and programs, both now and in the future.

**D.13. How does your program's policies/procedures ensure fair treatment, equitable access, and utilization of benefits for all persons, particularly marginalized and underserved groups and communities (i.e., marketing, outreach, eligibility determination and appeals)?**

CwD is a low-barrier organization. All are welcomed at the Community First Center and the winter overflow shelters regardless of age, race, color, religion, national origin, gender, marital status, sexual orientation, physical and mental challenges, socio-economic status, or any other cultural descriptors. Everyone - staff, volunteers, and individuals seeking service are valued and respected in all of our programs.

City with Dwellings stands with others for equity and justice and in denouncing racism, intolerance, and exclusion, and we recognize that taking a stand is not enough. Since the arrival of our new executive director, we have been on a path of exploration to identify how best to build the core values of diversity, equity, and inclusion into all our operations, as well as model those values as we advance our mission.

We believe that embracing diversity, equity, and inclusion as organizational values is a way to intentionally make space for positive outcomes to flourish. We are currently forming an Equity Team, made up of staff and board members, to create an action plan that will enable us to examine internal biases and adopt practices that promote diversity, equity, and inclusion in our work, in our employment practices, in our leadership and decision-making, and in our communications.

Interest and Investment Income	\$0.00	\$0.00	\$0.00
Parent Organization	\$0.00	\$0.00	\$0.00
Other	\$0.00	\$0.00	\$0.00
<b>Total Revenues by Category</b>	<b>\$998,853.39</b>	<b>\$951,154.98</b>	<b>\$690,259.59</b>

**Describe any amounts listed under "Other Operating Expenditures" or "Other Revenues." Provide details on any specific federal government revenue sources.**

Other operating expenditures cover organizational expenses and other program costs. They are funded from United Way, NC ESG CV funds, and private donations. The federal funding reflects our forgiveness debt income from the PPP Loan program and Emergency Shelter ESG CV2 funds.

**E.2. Has the City of Winston-Salem provided funding in the past? If so, provide a funding history of the most recent five years of City contributions in the table below.**

Year	Funding Source	Funding Amount
2020	City ESG (FY 21)	\$32,000.00
2020	City ESG (FY20)	\$27,181.00

**E.3. Complete the table below to show specific details of proposed City funding and other leveraged funding for the proposed project/program. List each additional funding source for the program.**

Activity	Funding Requested from City	Funds from Other Sources	Other Funds Source
Director of Diversion & Outreach	\$52,000.00	\$0.00	
Outreach & Diversion Specialist	\$41,500.00	\$3,960.00	private donations
Outreach & Transportation Specialist	\$41,500.00	\$3,960.00	private donations
Additional Key Staff (Total)	\$0.00	\$111,211.00	private donations, foundation grants
Rent, Transportation Costs	\$0.00	\$41,500.00	private donations
	\$135,000.00	\$160,631.00	

**E.4. For each activity and line item above, please provide a short but detailed description of how City resources will be used to carry out proposed programming.**

Full funding for core street outreach staff to engage with unsheltered homeless individuals in the community with the goal of identifying our community's unsheltered homeless, assisting with basic needs, and connecting them to supportive services and eventually, stable housing. Additional key staff and program expenses such as rent and transportation will be funded from other sources.

**E.5. Where another stakeholder or agency is providing non-monetary assistance with a particular aspect of your programming, please provide a short description of those activities and how they will supplement the use of City**

**funds.**

Partnerships with Bethesda Center, The Empowerment Project, law enforcement, Mobile Integrated Health, other CoC agencies, the City of Winston-Salem, and the United Way's Housing Matters Team all enable CwD to leverage the strengths of the organization for the benefit of the individuals we serve. We also rely on a strong volunteer network. Based on information generated by the Independent Sector, the estimated value volunteers and partner organizations contribute to CwD's programs is more than \$950,000. Even with the pandemic raging, our dedicated volunteers have provided more than 3000 hours of support to the CwD community.

**E.6. If this year's request is different in any way (amount, activities, etc.) from a prior year's request, explain how and why. If you are a new applicant, please describe how you would adjust your project/program if your funding request is not funded at the full amount.**

We are asking for additional funding for our core street outreach team. Since we first began our street outreach efforts and received partial funding for one outreach staff person, the population of unsheltered homeless and their needs have grown. During the pandemic, CwD received COVID-specific funds to enable us to continue our work and add outreach staff. We find ourselves at capacity even as our team grows, and as COVID funds dwindle, are also facing a future without the crucial funding needed to continue providing services to this community's most vulnerable citizens. While direct contributions are generous and cover a portion of operating expenses, and we will certainly pursue any and all available funding sources; at this time, without city funding, we'd be forced to downsize our program and reassess our street outreach efforts.

**SUSTAINABILITY (7 POINTS)**

**E.7. Describe the plan to sustain the project/program funding in future years. Include information about other funding sources to leverage City funds requested.**

We would like to continue to partner with the city in this important work to lift up our most vulnerable neighbors and we would continue to submit requests for additional funding, all while pursuing any and all viable sources, from other governmental grants to private foundations. We continue to be the recipient of generous individual gifts and will be placing more emphasis on annual giving along with other sustainable funding sources. Our existing relationships and partnerships provide strong potential for future increased giving. Our first full-time Executive Director was hired in July 2021 and as she settles into her role, she will be focused on carrying out the board's strategic direction regarding mission fulfillment and sustainability.

**BARRIERS (3 POINTS)**

**E.8. Describe any potential programmatic barriers to project implementation (e.g. recruitment or outreach challenges, etc.) and your plans for overcoming them.**

While the long-term effects of the pandemic are difficult to predict, we do anticipate an increased need within our community of neighbors. Beyond funding, we do not foresee any barriers to continuing the organization's street outreach program.

**E.9. Describe any institutional barriers to project implementation (e.g. staff vacancies, pending departures, etc.) and your plans for overcoming them.**

We do not anticipate any institutional barriers to continuing our street outreach program.

**AVERAGE COST (5 POINTS)**

**E.10. Use the table below to show the average amount of City funds requested per beneficiary to be served during the year and the average total cost of the service per beneficiary to be served during the year (including all funding sources)**

--	--

Proposed funds from the City for this project:	135000
Number proposed to be served for the year:	1013
Average City funds per beneficiary:	133.26
Proposed funds from all sources:	295631
Number proposed to be served for the year:	1013
Average total funds per beneficiary:	291.84
