

2022 Employee Equity Survey Overview

MARCH 23, 2022

Executive Summary

The Human Relations/Diversity, Equity, and Inclusion (DEI) Department launched the Employee Equity Survey on February 11, 2022. The survey was created by the DEI Division, with the assistance of the Equity Core Team. The purpose of the Employee Equity Survey was to gauge the climate of perceptions within the city, related to diversity, equity, and inclusion. Employees did not need actual knowledge or expertise to answer the questions. Instead, employees were to base all responses on their perceptions and opinions, using their firsthand or learned experiences. All responses were collected anonymously, and the survey closed on March 11, 2022.

The Employee Equity Survey received three hundred seventy-four (374) total entries out of a 2,311 workforce. Employees were only able to submit one survey. Additionally, there were a total of four hundred forty-six (446) combined responses to the two open-ended survey questions.

Presented herein is an overview of the survey, which can be used to benefit the City of Winston-Salem in the following areas: diversity in representation, equity in opportunity, and inclusion in participation.

On a scale of 1 to 5, where 1 is Strongly Disagree and 5 is Strongly Agree, how would you rate the following statements regarding Diversity, Equity, & Inclusion in our organization?

■ 1 ■ 2 ■ 3 ■ 4 ■ 5

City government employees are a diverse representation of the community that we serve.

All races are well-represented in all levels of government.

My department has a strong representation of all races.

Women are respected within the organization equally as much as men.

Various generations and age groups work well together within the organization.

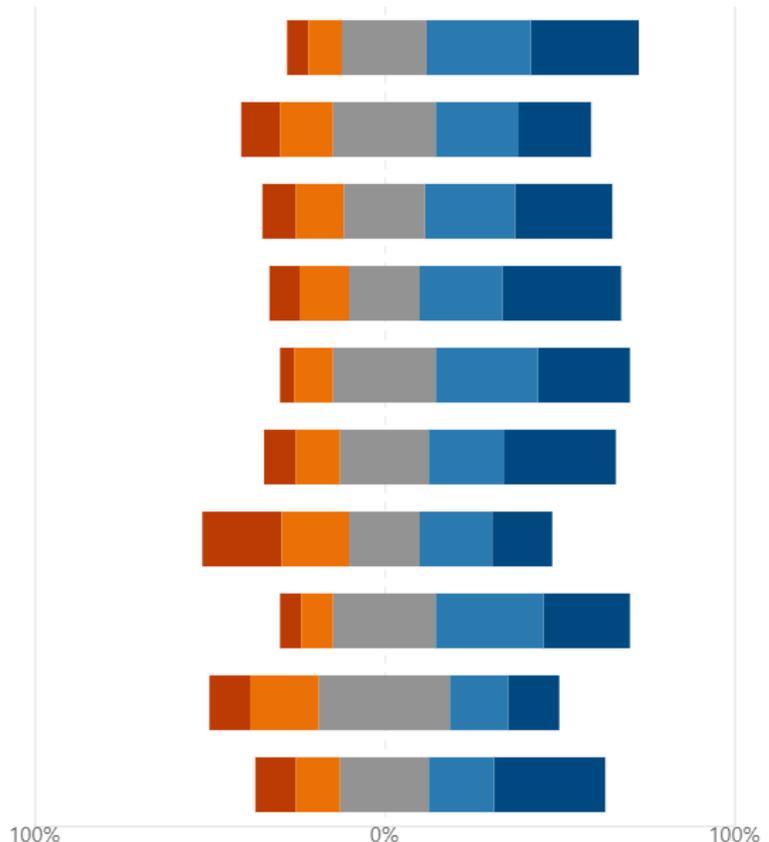

Men and women are equally paid in the organization.

Promotional opportunities and vacancies are made available in a fair and inclusive manner.

Most city employees are welcoming to and comfortable with employees who are lesbian, gay,...

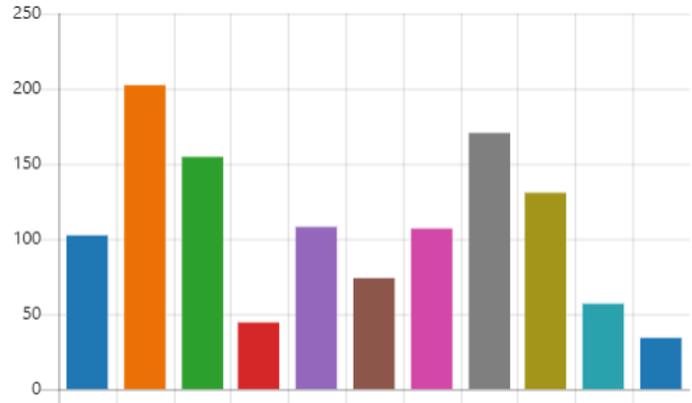

There is a good representation of employees who were not born in the United States within the...

The organization needs to do more to make all employees feel included and treated equally.
