B. Project Overview

Please provide the following information.

APPROACH (7 POINTS)

B.1. Provide a concise description of the proposed project/program, indicating specifically how City funds will be used. Briefly, what are the goals/objectives of the project/program?

Our project, "Project M.O.O.R.E" is to rehabilitate & transition the post-incarcerated and the at-risk back into our communities by providing them a means of employment, education/certification in auto repair, acquiring life/entrepreneurship skills, and continued mentorship.

The purpose of funding is to help reduce recidivism by providing our low-income at risk population with safety gear, educational supplies, life skills training and stipends needed to successfully complete our Auto Body Courses safely and efficiently while earning a nominal income.

Goals and Objectives includes but not limited to the following:

- reduction in recidivism
- increase in upward mobility
- safer school systems and communities
- increase in academic advancement, advancement and graduation rates among trouble youth
- improvement in student behaviors and cognitive thinking (decision making)

B.2. How will a participant access the proposed project/program, use the services, and derive a beneficial outcome from participation?

Participants can access the program from a referral from the Forsyth Correctional Institution, Main Street Academy, and community service workplace. All participants in the program have access to substance abuse counseling, mentorship, anger management, job readiness, business planning, workplace safety and hands on training and education in Auto Body Repair. These services aim to promote employment through practical instruction, offering personal guidance to inspire strong character, and encourage a spirit of fellowship for individuals while maintaining a standard of excellence in the automotive field as well as in the community.

NEED (7 POINTS)

B.3. Describe the unmet need that the proposed project/program seeks to address. Include data supporting the need.

Southside Rides works to address the issues of those youth who are at risk to have been incarcerated. According to the most recent statistics, 58 % of Inmates are African-American and continues to grow at an alarming rate. Furthermore, according to data produced from the Forsyth County Sheriff's Office, over half of those booked were African-American. The Southside Rides Foundation seeks to address the racial and social barriers that surrounds the at-risk as well as poverty, homelessness, recidivism, unemployment, lack of education, and limited access to resources.

COLLABORATION (6 POINTS)

B.4. Describe any specific collaborative relationships with other organizations (public or private) and how they will

Printed By: Tanya Banner on 1/19/2023

2 of 23

impact the project/program. How will collaboration contribute to the planning, implementation, operation, oversight, and performance measurement of the proposed project/program?

SSR has established partnerships with the Forsyth County Justice System, the Department of Social Services, Forsyth County Corrections, Forsyth Tech, Community Service Workplace, Main Street Academy and a host of youth behavioral agencies. These partnering agencies provides referrals to SSR and have mechanisms and criteria in place to track and monitor their successes. While enrolled in the program, SSR reports progress, performance, test scores and attendance to these partnering agencies. This allows them to conduct overall analysis of client performance for evaluation and also helps SSR in monitoring their successes within the Auto Body Program.

C. Strategy and Performance

C. Strategy and Performance

Please provide the following information.

STRATEGY (5 POINTS)

C.1. The City of Winston-Salem's strategic priorities, adopted most recently in the [2017-2021 Strategic Plan \(2019 Update\)](#) and under review for adoption by City Council for FY 2022 - FY 2025 Strategic Plan, are used as guiding principles to establish community priorities based on the vision, mission, and values set forward by the Mayor and City Council.

Indicate which of the City's strategic focus areas your program aligns with best (select one):

Safe and Secure Community

C.2. Select the service area(s) that your project/program relates to:

- Housing/Homelessness
- Economic Development
- Construction Rehabilitation
- Poverty Reduction
- Arts and Culture
- Youth
- Public Safety
- Transportation
- Other

PERFORMANCE (15 POINTS)

C.3. Describe the system to be used to track participant and program data. List any key reports and their frequency that will be used to capture project/program performance.

The system will be a combination of paper form, which will then be compiled into a spreadsheet for analyzing data. The performance measures will be tracked and monitored by having an intake application for every participant. This will assist us in tracking the number of participants and those who successfully complete the training. In addition to the intake form, we will do quarterly participant reviews during and for the first year following the completion of the training. The quarterly reviews will capture whether the participant is employed and whether they have been arrested and/or charged from a crime.

C.4. Explain the steps that will be taken if the stated program goals provided in C.3. are not achieved.

Printed By: Tanya Banner on 1/19/2023

As a recipient of the City of Winston Salem Grant, SSR has extensive experience with complying with government regulations, monitoring and reporting as result of the partnerships with the corrections and juvenile systems. Beyond tracking data for the class outcomes, SSR also maintains and tracks data on the community service referrals that is received through the court system. If original goals are not achieved, more changes will be implemented via the Board of Directors to ensure project goals are obtained and/or exceeded.

C.5. Use the chart below to show how your agency measures program effectiveness. List goals, activities, and performance measures you will use to evaluate services, facilities, and programs that will be funded by the City. Performance measures can be quantitative and/or narrative.

Applicants will be reimbursed funds based upon timely submissions of eligible invoices. These invoices should describe services rendered and should align with the goals and objectives cited here. Where outcomes do not align with goals, please be prepared to provide a written summary of shortcomings.

Stated Program Goals	Program Activities in Support of Goals	FY 21-22 Previous Year Results	FY 22-23 Current Year Projected Results	FY 23-24 Next Year Anticipated Results

C.6. FY 21-22 Program Accomplishments

As usual, students were very participatory in the Auto Body Program. Students were able to pay child support, court fees, and take care of their households with stipends received. During this time, 1 student was able to open their own auto repair shop, 7 students were hired permanently with auto body employers, and 5 students were able to pursue college educations.

C.7. FY 22-23 Key Objectives

Increase student retention and graduation rates, Decrease # of student habitual offenses/incarceration rates, increase student enrollment, increase percentage of student entrepreneurship & employment placement post-graduation, Increase in the number of vehicles restored, maintain student academic success at 90% and above, Students will receive a stipend for training program.

D. Organizational Capacity

Please provide the following information.

MISSION (5 POINTS)

D.1. Provide an overview of the organization. Include the organization's mission statement and the major services, programs, and activities provided. How does the proposed project/program help advance the mission of your organization?

The Southside Rides Foundation is a not for profit organization that believes everyone deserves a second chance and that all citizens have the capacity to be a constructive, distinguished, and conscientious member of the community. The educational automotive program aims to promote employment through practical instruction, offer personal guidance to inspire strong character, and encourage a spirit of fellowship for persons of all lifestyles while maintaining a standard of excellence in the automotive field as well as within the communities.

FUNCTION (5 POINTS)

D.2. How long has your organization been in operation?

2005

D.3. How does your organization benefit and serve the City of Winston-Salem and its citizens?

Southside Rides benefits the City of Winston-Salem and its citizens by providing the at-risk populations the opportunity to learn a trade and education in the automotive industry. We offer stipends to all participants that hence prohibits them from committing crimes to pay child support, support their households, rent, etc. Statistics show that 94% of participants enrolled in Southside Rides do not retort back to habitual offenses thus reducing recidivism, overcrowding of judicial systems, reduction in community crimes, promotion of upward mobility and improvement of the viability of neighborhoods.

STRUCTURE (5 POINTS)

D.4. In the chart below, list key personnel and executive staff involved in the proposed project/program.

Position Title	Activities/Inputs	Total Work Hours Per Week	% of hours proposed to be funded
Executive Director	<ul style="list-style-type: none">-Develop and implement strategies aiming to promote the organization's mission-Build an effective team of leaders by providing guidance and coaching to subordinate managers.-Ensure adherence of the organization's daily activities and long term plans to established policies and legal guidelines.-Direct and oversee fundraising efforts-Maintains relations of trust with shareholders, partners	40	0.00 %

	and external authorities -Act as the public relations representative of the organization in ways to strengthen its profile -Reviews reports to acquire understanding of the organization's financial and non-financial position -Serve as an instructor to the auto body program and hands on learning experiences -Ensure students are meeting their community service requirements/deadlines		
Auto Body Mechanic	Supervises participants in the Auto-Body Hands-On Instruction	40	0.00 %

D.5. List all executive staff and their compensation (other than per diem).

D.7. Please complete the Diversity of Employment and the Employment Profile below. See the [Request for Proposals \(RFP\)](#) for definitions of position types used in the Employment Profile.

Describe the hiring process and how it is structured to provide the most diverse candidate pool. Best practices for accessing a diverse hiring process and candidate pool include:

The hiring process consists in the development of the job description and announcement that is reviewed by the Executive Director and Board of Directors. The Job announcement includes title, role, responsibilities, compensation and date announcement will close. The job announcement will be posted on the agency website, our social media outlets and job boards such as Indeed. All job seekers are urged and welcome to apply. Southside Rides does not discriminate to race, color, gender, religion, disability or identity.

ABILITY (5 POINTS)

D.11. If this is an application for new funding, please describe the steps your organization will take to establish an action plan for successful program launch, including appropriate stakeholder training and coordination. Articulate a clear methodology for service delivery within the context of established goals and include a timeline of key action items and approximate dates for delivery.

N/A

D.12. Describe your organizations' past success with flexibly responding to unforeseen events, which had the potential to negatively impact deliverables. What were best practices learned, if any? How would you successfully use these practices with the proposed program, if necessary?

Southside Rides has suffered from limited grant funding from its Winston Salem location for many years. The majority of funding it does receive goes to stipends and operational costs. To adapt and keep stipends flowing to its students, SSR has the ability to restore and sell vehicles to the general public for revenue, host a variety of fundraisers and at times, partner with agencies to fill in gaps. SSR has acquired a grant writer to secure additional funding and opportunities to bridge and close the financial gaps. SSR desires to increase grant funding for its Winston Salem location in much the same manner and support is receives from Charlotte.

D.13. How does your program's policies/procedures ensure fair treatment, equitable access, and utilization of benefits for all persons, particularly marginalized and underserved groups and communities (i.e., marketing, outreach, eligibility determination and appeals)?

All persons are able to access and take advantage of the program and its services through court, probation, school and/or personal referrals. SSR does not discriminate in race, color, gender, status, religion, identity or disability.

However, all persons seeking help are required to obtain a completed referral form through one of our referring agencies.

E.2. Has the City of Winston-Salem provided funding in the past? If so, provide a funding history of the most recent five years of City contributions in the table below.

Year	Funding Source	Funding Amount
2016	SOAR	\$10,000.00
2017	SOAR	\$10,000.00
2018	SOAR	\$10,000.00
2019	SOAR	\$10,000.00
2020	SOAR	\$10,000.00

E.3. Complete the table below to show specific details of proposed City funding and other leveraged funding for the proposed project/program. List each additional funding source for the program.

Activity	Funding Requested from City	Funds from Other Sources	Other Funds Source
Stipends	\$25,500.00	\$0.00	SOAR
Uniforms/Safety Equipment	\$2,000.00	\$0.00	SOAR
Technology	\$5,000.00	\$0.00	SOAR
Auto Body Educational Materials/Supplies	\$2,500.00	\$0.00	SOAR
Auto Body Equipment	\$15,000.00	\$0.00	SOAR
	\$50,000.00	\$0.00	

E.4. For each activity and line item above, please provide a short but detailed description of how City resources will be used to carry out proposed programming.

Stipends: Stipends will be provided to students enrolled in the program to offset their personal and household expenses, serve as a monetary means of spousal/child support and/or fares associated with transportation. Many students coming into the program have no means of income and a low prospect for employment due to their criminal backgrounds.

Uniforms/Safety Equipment: To ensure a safe learning environment, students enrolled in Part II of the hands on autobody training will be supplied with a set of uniforms, safety goggles, OSHA Shoes, gloves and hat.

Auto Body Educational Materials/Supplies: Students will be supplied with required educational materials such as textbooks, writing utensils, and paper at no cost to them. All textbooks are to be returned at the end of the course.

Technology: Students enrolled in Part I of the Auto Body program will be provided with laptops and training in computer use if needed to further enhance, improve and streamline their educational experiences. Laptops will be returned upon graduation from the program. SSR would also like to purchase a copier with copy/scan capability to offer more time spent in instruction and increase productivity.

Auto Body Equipment: Students enrolled in the Part II of hands on training will be provided with an auto body repair tool kit. Furthermore, SSR would like to purchase a paint booth; a piece of equipment that is critical in the auto body repair curriculum.

E.5. Where another stakeholder or agency is providing non-monetary assistance with a particular aspect of your programming, please provide a short description of those activities and how they will supplement the use of City funds.

Goodwill is a partnering agency with Southside Rides that employs workers in the "First Time Work Program" to assist SSR in administrative, customer service/support, and custodial services when understaffed due to sickness or other personal reasons. This service is at no cost to SSR and is a great way to keep employee labor expenditures low and relatively stable.

E.6. If this year's request is different in any way (amount, activities, etc.) from a prior year's request, explain how and why. If you are a new applicant, please describe how you would adjust your project/program if your funding request is not funded at the full amount.

In the event city funds are not funded at 100%, SSR will adjust the amount of students allowed in the program and decrease stipend amounts. This limitation will project SSR's bottom line and allow for education to continue. This precautionary method will avoid a surge of expenditures and program overhead that will negatively impact SSR's financial stability and program success.

SUSTAINABILITY (7 POINTS)

E.7. Describe the plan to sustain the project/program funding in future years. Include information about other funding sources to leverage City funds requested.

Due to the issue of limited funding, the Southside Rides Foundation plans to sustain funding in the future years by seeking more models such as learning and venture networks that will highlight collaborative funding. SSR has been exploring ways to use collaborations and partnerships to leverage resources. Private and Public partnerships combined with shared funding models has become a priority within the last few months and we have become to trust others in their abilities to lead us effectively and fairly in updating our It systems, accounting software and acquiring an outside grant writer to assist us in grant applications and opportunities.

BARRIERS (3 POINTS)

E.8. Describe any potential programmatic barriers to project implementation (e.g. recruitment or outreach challenges, etc.) and your plans for overcoming them.

One programmatic barrier that limits the effective delivery of services in SSR's Auto Body program is the lack of state of the art auto body equipment. Having industry standard equipment is the core to our program and existence and is the fundamental building block/foundation to any auto-related business and/or repair shop. In order to keep up with industry standards that are ever changing, it is important SSR is able to adapt to meet these standards. In order to overcome these barriers it is imperative to strategize methods to produce consistent revenue such as hosting more community fundraisers, increasing vehicle restorations and sales, soliciting community donations, acquiring

additional grant funding, and finding auctions for gently used auto equipment.

E.9. Describe any institutional barriers to project implementation (e.g. staff vacancies, pending departures, etc.) and your plans for overcoming them.

The Southside Rides Foundation is in need of more instructors to teach the Auto Body Program. Here, the instructors are not paid, but rather on a voluntary, but dedicated basis. Currently, there are two instructors which include the Executive Director. Their knowledge in the curriculum is profound, however their schedules are often stretched thin. It is important the ED's time is dedicated fully to the oversight and management of the organization and its mission. SSR plans to address these issues by partnering with technical institutions with auto body programs, such as Forsyth Tech to provide part-time reduced or no cost instructional services. This process is now underway and SSR has had several alumni come back to serve as mentors and instruct the class.

AVERAGE COST (5 POINTS)

E.10. Use the table below to show the average amount of City funds requested per beneficiary to be served during the year and the average total cost of the service per beneficiary to be served during the year (including all funding sources)

Proposed funds from the City for this project:	50,000
Number proposed to be served for the year:	60
Average City funds per beneficiary:	833.00
Proposed funds from all sources:	50,000
