Design Services for a Streambank Stabilization Project

RFQ23316 issued 05.23.23

Pursuant to N.C.G.S. 143-64, the County of Forsyth is soliciting proposals from qualified engineering firms interested in providing professional design services.

Scope Summary: Provide professional design services for the stabilization of banks and removal of debris from the stream channels. Services are to include developing bid documents, providing bidding assistance, obtaining necessary permits, performing construction administration services, and assisting with project closeout. The project includes stream bank stabilization and debris removal on approximately 700 linear feet of stream, consisting of 2 separate reaches. The stream has been impacted by development on both sides of the stream. The intent is to design under a single contract and competitively bid as one construction project.

The End of Question Period is 5:00 pm, June 8, 2023. Responses received in writing will be addressed by written addendum and sent to all firms who have directly obtained the full document and to all websites where the original advertisement was posted.

Proposals are due by 12:00:00 pm, June 16, 2023.

To obtain the full RFQ document, contact Darren Redfield, City/County Purchasing at darrenmr@cityofws.org or 336-747-6936. Obtaining the document from a source other than Forsyth County's Purchasing Division is at proposer's risk of not obtaining the full document, any addenda or revisions, or cancellations.
