</table>

**NOTE:** General, special use limited, and special use district zoning were discussed with the petitioner(s) who decided to pursue the rezoning as presented. With a General use, all uses in the District must be considered.

**Neighborhood Contact/Meeting**

According to an email from the petitioner: “Neighborhood meeting was held at District Bar and Grille on April 22nd at 10am (11 people attended). Comments that Trade Street needs better lighting (the new bulbs create dangerous situations), more bike patrol presence up to 9th Street and that the NOTRA (NOrth TRAde) and Arts Districts folks will keep in touch to better help build the area. Later comments covered a cab stand within the Entertainment District boundary and the possibility of city-subsidized fares after 2am.”

**Zoning District Purpose Statement**

The E District is primarily intended to accommodate a mixture of retail, office, residential, and entertainment (indoor and outdoor) related uses. This district is intended for application in GMAs (Growth Management Areas) 1 (City/Town Centers), and 2 (Urban Neighborhoods).

**Applicable Rezoning Consideration from Chapter B, Article VI, Section 6-2.1(R)**

(R)(I) - Is the proposal consistent with the purpose statement(s) of the requested zoning district(s)?

Yes, the site is located within GMA 1 and 2 and is already zoned for a mixture of retail, office, residential, and some entertainment (indoor and outdoor) related uses.

A City driveway permit will be required for any change of use or redevelopment of the site. In addition, NCDOT has stated that access control for future development will be important through the corridor that this site is located and that a reduction in access points or roadway improvements, dependent on the type and scale of development, may be part of the driveway permit review process in the future.</td>

**CONFORMITY TO PLANS AND PLANNING ISSUES**

**Legacy GMA**

Growth Management Area 1 and 2 – City/Town Centers and Urban Neighborhoods

**Relevant Legacy Recommendations**

- Attract more retail and entertainment in GMA 1.
- Encourage more residential development at higher densities in GMA 1.
- Promote land use compatibility through good design and create a healthy mix of land uses in proximity to one another. Move away from the separating and buffering of some land uses and toward transitioning and blending those uses.

**Relevant Area Plan(s)**

The *Downtown Winston-Salem Plan (2013)* and the *North Central Area Plan (2007)*

**Area Plan Recommendations**

This zoning case includes property in two different area plans. The properties south of Martin Luther King Jr. Drive are in the *Downtown Winston-Salem Plan*, while properties north of Martin Luther King Jr. Drive are in the *North Central Area Plan*. The *Downtown Plan* identifies the subject properties as part of the Arts District. The plan calls for preserving ground floor storefront space in the Arts District for uses that complement the district. The Arts District also needs additional residential development. The Plan does not have property-specific recommendations beyond the overall Arts District Recommendations. The *North Central Area Plan* recommends the property at the northeast corner of Martin Luther King Jr. Drive and Trade Street for Office/Urban Residential. The Plan recognizes the adjacent property as industrial and calls for no changes. The Plan recognizes the property bounded by Liberty Street, Chestnut Street, and Ninth Streets as Commercial.

**Addressing**

There are no addressing or street naming concerns.

**Applicable Rezoning Consideration**

(R)(3) - Have changing conditions substantially affected the area in the petition?

No
Analysis of Conformity to Plans and Planning Issues

In 2012 the UDO was amended to create the use "Entertainment Facility, Large" and to establish the Entertainment (E) zoning district (UDO 232). The concept of a zoning district specifically designed for entertainment related uses was initially born out of discussions focusing on entertainment-related noise in downtown Winston-Salem. In December of 2012, the City’s Noise Ordinance was amended to exempt properties located within an entertainment district. This amendment also extended a noise disturbance area of 300’ measured from the perimeter of said district.

The use of Entertainment Facility, Large is defined as “Any facility which has a permitted occupancy of three hundred (300) or more and is established primarily to provide entertainment activity (indoor and/or outdoor) to the general public or to a private membership and not otherwise classified as Restaurant (without drive-through service); Adult Establishment; Stadium, Coliseum, or Exhibition Building; or Club or Lodge. Such entertainment activities shall include dancing, live music performances, amplified music, musical entertainment provided by a disc jockey, karaoke, and any similar entertainment related activities.”

This new use is permitted by right in the proposed E district and is permitted in the HB, GB, and CB districts upon the issuance of a Special Use Permit by the City Council. Otherwise, in regard to land uses, the list of permitted uses within the existing CB, GB, and PB districts is more extensive that those allowed in the proposed E district.

The proposed E district contains certain minimum spacing standards from other E districts and from RS and RM zoned properties as well as a one acre minimum lot requirement. The subject request meets these requirements. Also, said district includes requirements for street lighting and public crosswalks should any existing Entertainment Facility, Large undergo expansion or should any new use be established within the district. A parking study may also be required in such instances, as noted in the E district requirements.

As stated previously, the subject property is located within the northeastern edge of downtown in an area which has seen significant new investment over the last several years. This includes new buildings as well as the adaptive reuse of many older structures. The establishment of an Entertainment district may encourage additional development and street life in this area. Planning staff supports the request.

**Staff Recommendation:** Approval

**Note:** These are staff comments only; final recommendations on projects are made by the City-County Planning Board, with final decisions being made by the appropriate Elected Body, who may approve, deny, table or request modification for any project. **The applicant or representative is strongly encouraged to attend the public hearings where the case will be considered by the planning board and the elected body.**
Gary Roberts presented the staff report. Mr. Roberts explained that the petitioner removed the present CB zoned properties from the request.

**PUBLIC HEARING**

**FOR:**
Drew Gerstmyer 1315 S Main Street, Winston-Salem, NC 27127  
- We feel that this spot is the best location for the Entertainment Zoning District.  
- It’s helpful in that it assists currently existing businesses.

Richard Miller 626 N Trade Street, Winston-Salem, NC 27101  
- I’m confused about what the Entertainment Zoning District encompasses and it’s requirements.  
- I thought there were no parking requirements.

Chairman King asked Paul Norby to explain about the Entertainment Zoning District questions:

The Entertainment Zoning District was created by City Council to have an area that would be vibrant and innovative. It is also meant to be an initiative to invite these types of uses to locations where this district is, and a way to encourage an urban mixture of uses. It is not the only district that can contain a large entertainment venue. There are certain other zoning districts that would allow for a large entertainment venue by applying for a Special Use Permit.

As for the parking, the Central Business District is the only one that has no off-street parking requirement due to the existence of shared parking and parking decks, transit facilities and very pedestrian oriented development. However, there is an allowance for reduction of parking requirements in the Entertainment Zoning District.

**AGAINST:**
Will Knott, 608 N Trade Street, Winston-Salem, NC 27101  
- I am in the arts district and the north historic district.  
- I have been trying to understand parts to the Entertainment Zoning District and see what it is they are trying to accomplish.  
- We already have bars within the arts district and we find we do not get any business from the people walking through.
• The customers for the bars leave their cars parked on the street and then take taxi cab rides home while leaving their cars, and we’re losing customer parking.
• Leaving marginal parking will create a hardship on the downtown businesses.
• Another delicate issue this creates is the “aftermath” that the downtown bars create for businesses the next morning and the mess that people leave behind on our sidewalks and properties.
• The nature of bars brings an unintended crime aspect along with them and changes the family atmosphere that we have worked hard for.
• A lot of out of town business comes from tourism and the appearance of the aftermath could be a deterrent.
• The entertainment district is experimental zoning to Winston-Salem and I’m not sure why we need it.
• The issue of the noise is getting moved to our side of the neighborhood.
• This type of district is starting to bring back some of the characteristics that the art pioneers have worked hard to clear out.
• This will be a downhill turn for the artists.

Greg Carlyle 101 W Fifth Street, Winston-Salem, NC 27101
• I have the Millennium Center and I am no stranger to all the different types of entertainment that go on down the street from me.
• Being located within one mile, what if I want to become a part of the Entertainment Zoning District?
• The developers think this will enhance residential development.
• What developer will invest in building within 300’ of the noise from the Entertainment Zoning District?
• My concern is what is this for, if it’s no different than my own district?
• This puts me in a competitive disadvantage that I can’t apply for an Entertainment Zoning District.
• I support the arts district and all that the merchants have done over these past years.
• The Planning Board should look very carefully at the implications of this and how this applies to the future of the development of our city.
• My other issue is about the parking and how it is a concern when the city has sold all of the parking decks.
• I don’t know where the parking is going to come from.

WORK SESSION

During discussion by the Planning Board, the following points were made:

Chairman King asked Paul Norby if it was determined that the Millennium Center was not impacted by the Entertainment Zoning District.

Paul responded and said that in the discussion on the creation of the Entertainment Zoning District in the UDO, the Millennium Center and other entertainment venues in other parts of the city were taken into consideration in the recommendation by the Planning Board and the City
Council to accommodate existing or new entertainment venues that aren’t in an Entertainment Zoning District. We also sent letters to all known large entertainment venues notifying them that an Entertainment Zoning District amendment was under discussion. *(Note: see copies of letters sent in 2012 as an attachment to this report)*. Paul stated that in the HB (Highway Business), GB (General Business) or CB (Central Business) you can apply for your individual site to have a Special Use Permit to have a large entertainment venue. You don’t have to apply for an Entertainment Zoning District that has to have a one mile radius around it in order to have a large entertainment venue. There is a lot size requirement of one acre for the zoning district, not for the facility under a Special Use Permit.

The Arts District Association was not present at the public meetings and hearings for the Entertainment Zoning District discussions.

Chairman King offered to the proponents the opportunity to speak in rebuttal to the opposition to give equal time to both sides and Mr. Gerstmyer had nothing further to add.

There are some uses that you couldn’t use in the Entertainment Zoning District that you can use in some of these other districts, with restaurants being allowed in all of the commercial districts.

The 300’ buffer was created so that entertainment venues can have some protection against residential building but still have mixed use. It is a “buyer beware” if someone buys a residential location in the Entertainment Zoning District.

A lot of this is fear of the district and not the specific case itself.

The Planning Board dealt with and discussed every issue that came up about the Entertainment Zoning District for about a year and we wished there would have been more participation during that time from the public. We took steps to identify and protect all of the large entertainment venues that already existed and mailed letters to inform them.

Dear Owner:

You may have seen media coverage of some recent City Council discussion about a possible Entertainment Zoning District. These discussions have focused on what could be done to better promote a concentration of larger entertainment-related land uses in one or more areas of the City. Most of the discussion so far has been about development of such uses in an area of North Trade Street near Martin Luther King, Jr. Drive.

Two committees of the City Council have asked the planning staff to develop a draft of such an Entertainment Zoning District. Planning staff reviewed the draft with the committees in order to receive direction from them as to features they would like to see in it. In their meetings of July 9 and 10, the committees requested that the formal process begin with consideration of the amendment to the Unified Development Ordinances to allow for the creation of Entertainment Zoning Districts. There will be a public hearing by the City-County Planning Board on Thursday, August 9 at 4:30 PM in the 5th floor Public Meeting Room of the Bryce Stuart Municipal Building, 100 East First Street.

According to the current draft of the Entertainment Zoning District (which is enclosed for your information and review), it appears that your business may potentially be affected by the amendment, if adopted. The reason for that is that in order to designate large entertainment venues, a definition of such uses had to be created. The definition includes, among other things, a minimum size threshold of a large entertainment venue of 300 persons capacity. According to the City-County Inspections Division, your establishment would meet that size threshold. The draft ordinance specifies that large entertainment venues are only permitted within the Entertainment Zoning District.

If the draft is adopted, your establishment could continue to operate as a legally nonconforming use in your present zoning district, even if it is not zoned “entertainment”. However, if you expanded your use in that location, or if you ceased operations for a year or more and then chose to re-establish it, it would have to be rezoned to the Entertainment Zoning District. Given some of the eligibility criteria for establishing Entertainment Zoning Districts in the draft ordinance, it may be difficult to rezone all the present large venues to the “entertainment” District.

The Planning Board wants to be sure you are aware of this proposal in case you wish to express your views about it. After the Planning Board makes its recommendation, the proposal would go before the full City Council for public hearing and consideration. If you have any questions concerning the draft proposal, please feel free to contact Aaron King, Principal Planner at 747-7068 or by email at aaronk@cityofws.org.

Sincerely,

A. Paul Norby, FAICP
Planning Director
The proposed zoning map amendment from GB (General Business District), and PB (Pedestrian Business District) to E (Entertainment Zoning District) is generally consistent with the Legacy Comprehensive Plan goal of attracting more retail and entertainment to Downtown and approval of the request is reasonable and in the public interest because:

1. The request is consistent with the purpose statement of the proposed E District; and

2. The request may result in additional lighting and pedestrian crosswalks being installed within the proposed district by the developer based upon future development; and

3. The request may encourage additional development in the area.
DENIAL
STATEMENT OF CONSISTENCY WITH COMPREHENSIVE PLAN
W-3187
(DREW GERSTMYER)

Although the proposed zoning map amendment from GB (General Business District), and PB (Pedestrian Business District) to E (Entertainment Zoning District) is generally consistent with the *Legacy Comprehensive Plan*, denial of the request is reasonable because it will preclude the establishment of another E District within one mile of the proposed district and could negatively impact the adjacent Arts District.
