### Proposal

The petitioner is requesting to amend the Official Zoning Maps for the subject property from (General Business District) Convenience Store to (General Business District). The petitioner is requesting the following uses:

- Convenience Store; Restaurant (with drive-through service); and Restaurant (without drive-through service)

### Neighborhood Contact/Meeting

The petitioner has stated that they do not plan to have a neighborhood meeting.

### Zoning District Purpose Statement

The GB District is primarily intended to accommodate a wide range of retail, service, and office uses located along thoroughfares in areas which have developed with minimal front setbacks. However, the district is not intended to encourage or accommodate strip commercial development. The district would accommodate destination retail and service uses, characterized by either a larger single business use or the consolidation of numerous uses in a building or planned development, with consolidated access. This district is intended for application in GMAs 1, 2 and 3 and Metro Activity Centers.

### Applicable Rezoning Consideration from Chapter B, Article VI, Section 6-2.1(R)

(R)(1) - Is the proposal consistent with the purpose statement(s) of the requested zoning district(s)?

Yes, the site is located along a major thoroughfare within an activity center with consolidated access in Growth Management Area 3 (Suburban Neighborhood).

## CONFORMITY TO PLANS AND PLANNING ISSUES

### Legacy GMA

Growth Management Area 3, Suburban Neighborhoods

### Relevant Legacy Recommendations

- Manage growth by making more efficient use of land that has already been developed, encouraging reuse and infill and capitalizing on other development opportunities.

### Relevant Area Plan(s)

*Southwest Suburban Area Plan, 2008*

### Area Plan Recommendations

- The site is located in an area designated as the Hanes Mall retail/Residential Mixed-Use Area. This area is proposed for a mix of retail and multifamily uses located along Hanes Mall Boulevard. Redevelopment of this area should incorporate pedestrian-scaled architectural detailing and allow for a visual connection between the public realm and activity inside buildings.

### Addressing

No address number or street naming concerns.

### Applicable Rezoning Consideration from Chapter B, Article VI, Section 6-2.1(R)

(R)(3) - Have changing conditions substantially affected the area in the petition?

The adjacent former Circuit City store has closed.

(R)(4) - Is the requested action in conformance with Legacy?

Yes

### Analysis of Conformity to Plans and Planning Issues

The request proposes to redevelop a relatively small GB-S zoned site by removing the existing convenience store and replacing it with a restaurant with drive-through service. The current zoning permits the use of convenience store only. The site is surrounded by other commercial uses and the request is consistent with Legacy’s infill recommendation to reuse property which has already been developed. Considering the lower signage along this portion of Hanes Mall Boulevard, a monument sign condition is recommended.
