#### CONFORMITY TO PLANS AND PLANNING ISSUES

**Legacy GMA**
GMA 3 (Suburban Neighborhoods)

**Relevant Legacy Recommendations**

- Legacy recommends concentrating economic development activity in locations identified in the Legacy Development Guide including Winston-Salem’s Downtown, Activity Centers, and urbanized areas with established infrastructure. Encourage redevelopment and reuse of existing sites and buildings which are visually compatible with the surrounding area.

**Relevant Area Plan(s)**
Southwest Suburban Area Plan (2008)
**Area Plan Recommendations**

The site is located within the South Stratford Road Metro Activity Center. It is located in an area designated in the adopted Plan for office use. The Plan notes that there are existing single-family residential buildings in the area that may be suitable for redevelopment. Redevelopment of the area should consist of comprehensively planned office development. Where this is not viable, individually developed office uses similar in character to the existing development in the area are also acceptable. Vehicular cross-access easements should link new development with adjacent parcels. These connections will ease traffic problems and improve circulation in the area.

**Applicable Rezoning Consideration from Chapter B, Article VI, Section 6-2.1(S)**

(S)(3) - Have changing conditions substantially affected the area in the petition?

No

(S)(4) - Is the requested action in conformance with Legacy?

Yes

**Analysis of Conformity to Plans and Planning Issues**

The subject request is consistent with the general recommendations of Legacy and the specific recommendations of the *Southwest Suburban Area Plan (SSAP)*.
