</table>

**NOTE:** Both general and special use district zoning were discussed with the petitioner(s) who decided to pursue the rezoning as presented. With a General use, all uses in the District must be considered.

### Zoning District Purpose Statement

The PB District is primarily intended to accommodate office, retail, service, institutional, and high density residential uses which customarily serve community and convenience business needs of smaller communities and urban nodes in the city and county. The district is intended to encourage the development of attractive, identifiable small towns, and to accommodate the pattern of building in the business concentrations surrounding the central core of Winston-Salem, and the central core of other municipalities in the County. The district should demonstrate pedestrian oriented design through elements such as buildings pulled up to the street, on-street parking, street trees, covered arcades, awnings, storefront display windows, public/private outdoor spaces, wide sidewalks, and building entrances facing the street. This district is intended for application in Growth Management Areas 1, 2 and 3.

### Applicable Rezoning Consideration from Chapter B, Article VI, Section 6-2.1(S)

(S)(I) - Is the proposal consistent with the purpose statement(s) of the requested zoning district(s)?

The PB district purpose statement mentions accommodating “the pattern of building in the business concentrations surrounding the central core of Winston-Salem.” The subject request is consistent with this statement as the property is located on the periphery of downtown Winston-Salem.

### Applicable Rezoning Consideration from Chapter B, Article VI, Section 6-2.1(S)

(S)(2) - Is/are the use(s) permitted under the proposed classification/request compatible with uses permitted on other properties in the vicinity?

Yes, the site is located in an area composed of commercial and industrial zoning.

### Physical Characteristics

The subject property is relatively flat and does not contain any streams or wetlands.

### Proximity to Water and Sewer

The subject property will be served by public water and public sanitary sewer.

### Stormwater/Drainage

No known issues

### Watershed and Overlay Districts

The site is not located within a water supply watershed.

### Historic, Natural Heritage and/or Farmland Inventories

Known Historic Resources: None located directly on site; however there are properties located to the east, west, and south of the site.

Forsyth County Architectural Inventory Number/Name: Directly adjacent historic properties are as follows: A. Robinson Building (707-709 Patterson Ave.), W.C. Brown Apartment Building (311-317 E. 7th St.), Lloyd Presbyterian Church (748 Chestnut St.), Craver Apartment Building (706-712 Chestnut St.), Goler Memorial A.M.E. Zion Church (630 Patterson Ave.)

Known Forsyth County Archaeological Site/Number: N/A

National Register of Historic Places: Yes, 5 individual properties, directly adjacent to the east, west, and south of the site are listed on the National Register (see above)

Local Historic Landmark: Lloyd Presbyterian Church, located directly across Chestnut Street to the west, is a Local Historic Landmark

Historic District: No

Comments: This site, while itself not possessing historic resources, is located in the midst of several properties listed on the National Register of Historic Places. These buildings were placed on the National Register as part of Winston-Salem’s comprehensive African-American Historic Resources project, completed in the 1990s. The overall area was key to African-American life in the late 19th century. Depot Street (today’s Patterson Avenue) was initially developed as a result of its proximity to tobacco factories, and in the early 20th century was the business, cultural, and social hub of the African-American community. Additionally, located in close proximity to the site are the P.H. Hanes Knitting...
The subject property currently contains a mixture of two zoning districts (GB & LI) and a PB-S Two-Phase zoning. Currently, a wide range of intense uses could be developed on the GB and LI portions of the site. The existing PB-S Two-Phase zoning is basically a blank-slate site plan that does not show any proposed building locations or site design features. The site is currently undeveloped and contains a relatively flat topography that is conducive for development. Given the site’s proximity to historically significant properties, staff would encourage the petitioner to develop the site in a way that is sensitive to the unique character of the surrounding area. Staff believes that general use PB zoning is appropriate for the subject property, given the PB district requirements, and the consistency with the adopted Downtown Plan.

**Proposed Access Point(s)**

Since this is a general use rezoning request, the exact location of access points is unknown.

**Planned Road Improvements**

The Thoroughfare Plan recommends that Liberty Street be constructed as a two lane cross section with combined parking and bike use with sidewalks.

**Trip Generation - Existing/Proposed**

**Existing Zoning**

Staff is unable to determine the trip generation for existing general use and two-phase zoning.

**Proposed Zoning**

Staff is unable to determine the trip generation for general use zoning.

**Sidewalks**

Sidewalks exist along the streets adjoining the subject property.

**Transit**

Multiple transit routes run in this area.

**Traffic Impact Study (TIS)**

Not required

**Analysis of Site Access and Transportation Information**

Staff does not anticipate any negative transportation issues with this request.
### Legacy GMA

GMA 1 (City/Town Centers) and GMA 2 (Urban Neighborhoods)

### Relevant Legacy Recommendations

- Promote compact, pedestrian-oriented neighborhoods that contain a mixture of residential and commercial buildings, public spaces and amenities, and offer a variety of transportation options.

### Relevant Area Plan(s)

**Downtown Plan** (revised 2007)

### Area Plan Recommendations

- The proposed development site is in the Goler Heights mixed-use district. The plan notes this area as one of the walkable districts surrounding the core of downtown.

### Redevelopment Plans

Certified Area/Name: Liberty-Patterson Redevelopment Area

Type of Certification: A Non-Residential Redevelopment Area, certified January 27, 2000

Redevelopment Recommendation(s): The Redevelopment Plan was first adopted on April 17, 2000. On August 4, 2004, the Plan was amended for properties in the Goler area, including the subject property. The objective of the amendment was to allow greater flexibility in land use and zoning to achieve a mix of urban uses, consistent with the **Downtown Plan** and the Goler CDC’s own strategic development plan. The recommended land use for the area is Urban Mixed Use and the proposed zoning is an Urban Mixed Use District, defined as PB, PB-S or MU-S.

### Applicable Rezoning Consideration from Chapter B, Article VI, Section 6-2.1(S)

**S(3) - Have changing conditions substantially affected the area in the petition?**

Yes; the area is being planned and developed as an urban, mixed-use district complementary to downtown and the adjacent Piedmont Triad Research Park.

**S(4) - Is the requested action in conformance with Legacy?**

Yes

### Analysis of Conformity to Plans and Planning Issues

The subject request is consistent with the recommendations of **Legacy** and the **Downtown Plan**. **Legacy** mentions “promoting compact, pedestrian-oriented neighborhoods that contain a mixture of residential and commercial buildings, public spaces and amenities, and offer a variety of transportation options.” Staff believes that the PB district is an appropriate district to facilitate this type of compact, pedestrian-oriented design. The recommendations of the **Downtown Plan** reinforce this style of development. Staff believes that this request is consistent with other rezonings that have been requested along the periphery of downtown Winston-Salem. The PB district serves as a suitable transition from the CB zoning which is present in the core of downtown Winston-Salem.

**STAFF RECOMMENDATION**  APPROVAL

**NOTE:** These are staff comments only; final recommendations on projects are made by the City-County Planning Board, with final decisions being made by the appropriate Elected Body, who may approve, deny, table or request modification for any project. **THE APPLICANT OR REPRESENTATIVE IS STRONGLY ENCOURAGED TO ATTEND THE PUBLIC HEARINGS WHERE THE CASE WILL BE CONSIDERED BY THE PLANNING BOARD AND THE ELECTED BODY.**

**PUBLIC HEARING**

**FOR:** None

**AGAINST:** None
WORK SESSION

During discussion by the Planning Board, the following comments were made:

1. Carol Eickmeyer asked why this did not come in as Limited Use in light of the historic entities surrounding this site? Staff responded that the general use category has served well in this part of the community because of Goler's master plan which had City input and that PB standards would ensure the type of development preferred for this area while allowing the flexibility that isn't available with PB-S, GB and LI which currently exist.
