CONFORMITY TO PLANS

GMP Area (Legacy): City Center (GMA 1).
Relevant Comprehensive Plan Recommendation(s): For the City Center area, Legacy recommends the creation of a livable, well designed and aesthetically appealing downtown area; attracting a variety of businesses that add to the vitality of downtown and provide a range of employment opportunities; providing a large and varied mix of housing in and near downtown; and, encouraging mixed use developments at densities that generate high levels of pedestrian activity.
Relevant Development Guide Recommendation(s): The subject property is located in the Goler/Depot Street Renaissance Area. The Downtown Plan proposes revitalization of the Goler Area, which will provide a more neighborhood-oriented housing environment adjacent to the downtown core.

Other: The Goler Community Development Corporation has a Draft Strategic Development Plan for this area. The first initiative of the Plan is to begin the framework for emerging housing options for the Goler Community as well as the surrounding district. This initiative is consistent with the proposed PB zoning district.

COMMUNITY DEVELOPMENT

Certified Area/Name: Liberty-Patterson Redevelopment Area.
Type of Certification: Non-residential Redevelopment Area, certified January 27, 2000.
Redevelopment Recommendation(s): The subject property was noted as existing industrial and not shown for acquisition by the City of Winston-Salem. Changes in land use were only considered for a very limited area near where the City may acquire property. The subject request is not in conflict with the goals of the Redevelopment Area.

HISTORIC RESOURCES REVIEW

Known Historic Resources: Yes.
Forsyth County Architectural Inventory Number/Name: #823.
National Register of Historic Place: Study List: P.H. Hanes Knitting Company.
Comments: The subject property is located within the proposed P.H. Hanes Knitting Study List area. The study area is a collection of buildings generally bounded by North Main, East Sixth, the Norfolk Southern Railroad, and East Seventh.

ANALYSIS

The subject request is to rezone 1.76 acres located on the northwest corner of Sixth and Chestnut Street from LI to PB. Currently located on the subject property is a multistory, circa 1940, building which was originally one of the warehouse and shipping buildings for the P. H. Hanes Knitting Company. The structure was most recently utilized by the former Brown and Williamson Tobacco Company and is currently unoccupied with the exception of the Goler Community Development Corporation office.

The surrounding area, with access to the Norfolk Southern Railroad, has a long history of industrial and commercial activities. Many of these properties and structures have transitioned into various degrees of under use as a result of changing development patterns and economic conditions. However, the area is also showing signs of diversified reinvestment. The site is within the Goler/Depot Street Renaissance Area of the Downtown Plan which recommends a more neighborhood-oriented housing environment adjacent to the downtown core. The subject property is also located within the area defined by the Goler Community Development Corporation’s Draft Strategic Development Plan. This plan, which encompasses a multi block...
area, also emphasizes housing opportunities and envisions ±600 residential units within a variety of different housing types. Although the subject request is general use, staff would prefer to see future petitions associated with the plan to be submitted comprehensively within a special use request.

As noted in the HISTORY section, two other LI to PB and PB-S petitions have been approved in the immediate vicinity of the subject property during the last few years. The minimal to non-existent building setback and dimensional requirements of the PB district, are actually more reflective of the surrounding urban development pattern than those of the existing LI district. In addition, the possibility for the residential uses allowed in the PB District, would be more consistent with the objectives of the above mentioned public and private plans than under the current LI zoning which precludes any residential uses. The subject request should generate no negative impact on this area from a zoning standpoint and staff recommends approval.

**FINDINGS**

1. *Legacy* recommends providing a large and varied mix of housing in and near downtown.

2. The Goler/Depot Street Renaissance Area of the *Downtown Plan* supports the development of a more neighborhood-oriented housing environment adjacent to the downtown core.

3. The purpose statement of the proposed PB district is generally more consistent with the Goler Community Development Corporation’s Draft Strategic Development Plan than the current LI zoning.

4. The petition would permit a greater mixture of uses and more flexible building setbacks within an established inner city area.
