ANALYSIS

The subject request is a Site Plan Amendment for a 0.72 acre portion of a larger GO-S TWO PHASE site. The property is located on the south side of Vest Mill Road west of Westgate Center Drive.

The site is surrounded by other GO-S properties, which are developed with small to medium sized offices. In 2000 a Final Development Plan was approved for the subject property resulting in the conversion of a single family residence into a 3,202 square foot office. Staff recommended approval of the request yet also recommended that four parking spaces, which were shown facing Vest Mill Road, be relocated and that the vegetation within this area be maintained. Both of those requests were agreed to and the site plan was subsequently approved. The vegetation referred to included four, 10-20 inch diameter trees which provided some degree of mature greenery and shading in this non-residential area. Unfortunately during the last four years, two of these trees were removed. One pecan tree and one willow oak tree remain although one of the trees has been topped recently.
The subject request would add 3,617 square feet to the existing structure along with 16 additional parking spaces. The bulk of the new parking would be installed facing Vest Mill Road in the area of said mature trees. While staff has no concern with the additional building square footage, staff’s preference would be to accommodate the associated parking in a manner that maintains the integrity of the original approved site plan. The petitioner has however agreed to replace said existing frontyard trees with other large variety specimens should they not survive the construction activity and proposed site improvements.

The petitioner has also agreed to use wheel stops and not install curbing around the perimeter of the parking area which will reduce the impact within the critical root zone of the trees. Given the existing character of the surrounding development pattern along with said site plan conditions, staff recommends approval of the request.

FINDINGS

1. Proposed is a Site Plan Amendment to more than double the size of an existing Medical and Surgical Office.

2. The proposed Site Plan Amendment is generally compatible with the surrounding development pattern and the original TWO PHASE approval.

3. The petitioner has revised the site plan to better address staff’s concerns about protecting the existing vegetation along Vest Mill Road.

STAFF RECOMMENDATION

Zoning: **APPROVAL.**

Site Plan: Staff certifies that the site plan meets all code requirements, and recommends the following conditions:

- **PRIOR TO THE ISSUANCE OF GRADING PERMITS**
  a. Storm water management study will be required for this site. The storm water management system shall be designed for the entire 2.71 acre site and not for individual sites as they develop.
  b. Developer shall cordon off in the field the limits of grading under the drip line of the existing pecan trees within the front yard.

- **PRIOR TO THE ISSUANCE OF BUILDING PERMITS**
  a. This property is subject to the Stratford Road Impact Fee approved for this area.

- **PRIOR TO THE ISSUANCE OF OCCUPANCY PERMITS**
  a. Developer shall be required to widen the frontage on Vest Mill Road 18 feet from centerline with curb and gutter and a sidewalk.
b. One (1) freestanding monument type ground sign shall be permitted on Vest Mill Road with a maximum height of five (6) feet and a maximum copy area of thirty-six (36) square feet.

- OTHER REQUIREMENTS
  a. Should the existing front yard trees die, they shall be replaced with large variety trees as defined in UDO Section 3-4.10.
