ANALYSIS

The request is for a Special Use Permit to expand Institutional parking into a residential zoning district. The site is located on the east side of Bowen Boulevard south of Twenty-Fifth Street. The subject request would provide off-street parking to a Church currently relying predominantly on on-street parking.

The Interdepartmental Site Plan Review Committee had several concerns regarding width of access and the parking lot layout after review of the original site plan. The site plan preparer has met with staff to address these concerns. He was agreeable to making revisions to address said concerns. The site plan preparer submitted revisions to the site plan which addressed the concerns.

Based upon the following findings as required by the UDO, staff supports the subject Special Use Permit request.

FINDINGS OF FACT

According to Section 6-1.5(D) of the zoning ordinance of the UDO, the Planning Board must make the following findings in support of a favorable recommendation.

1. The development is in conformity with Legacy as it relates to the specific area; Planning Staff: Yes.

2. Water and sewer are available in adequate capacity; Yes.

3. Where buildings greater than thirty-five (35) feet are proposed within the City of Winston-Salem limits, there is adequate access for aerial fire-fighting equipment; Yes.
4. Streets and highways, both within and in the vicinity of the development, are of such design and traffic-carrying capacity that the development will not create a traffic hazard; Yes. The requested access is onto John Street that has adequate capacity for the anticipated traffic volumes associated with the proposed request.

5. General layout and design of this development meet all requirements of this ordinance; Yes.

6. Adequate, safe, and convenient provision is made for vehicular and pedestrian movement on the site with particular attention paid to the needs of public safety equipment and personnel (fire, police, etc.) and service vehicles and personnel (sanitation, postal delivery, etc.); Yes.

7. The Planning Board may recommend to the Elected Body conditions as identified in Section 6-1.3(A)(1) for the issuance of the special use permit to reduce impacts associated with the project; N/A. Staff does not recommend any conditions beyond UDO requirements.

In addition to these seven findings by the Planning Board, the Winston-Salem City Council must make affirmative findings as follows to issue a special use permit [Section 6-1.5(F) of the Zoning Ordinance of the UDO]:

1. That the use will not materially endanger the public health or safety if located where proposed and developed according to the application and plan as submitted and approved; Yes.

2. That the use meets all required conditions and specifications; Yes.

3. That the use will not substantially injure the value of adjoining or abutting property, or that the use is a public necessity; Yes.

4. That the location and character of the use, if developed according to the application and plan submitted and approved, will be in harmony with the area in which it is to be located and in general conformity with Legacy; Yes.
