CONFORMITY TO PLANS

GMP Area (Legacy): GMA 2, Urban Neighborhoods
Relevant Comprehensive Plan Recommendation(s): Legacy recognizes the scarcity of “greenfield” industrial sites and recommends stimulating redevelopment and increased economic activity on older, abandoned, or underdeveloped industrial sites.

Relevant Development Guide Recommendation(s): The SEAP identifies the site as existing single-family land use on industrially zoned property. There is not a specific recommendation for this site. However, the SEAP recommends consolidating industrial uses at existing locations along Martin Luther King Jr. Drive.

ANALYSIS

The subject request is to rezone a 1.57 acre tract on the east side of Martin Luther King Jr. Drive from LI to LB. The property lies generally between Winston-Salem State University to the north and the neighborhood commercial area along Waughtown Street to the south. The surrounding area is predominately industrial in nature and zoned either LI, LI-S or GI except for a 2.65 acre parcel, approved for LB-S in January of 2002 (W-2521) which is located 100+ feet north of the subject property. This site was the subject of a previous rezoning attempt heard in 2003. The request was a change from LI to PB (Pedestrian Business), W-2626. Staff had similar concerns with the PB zoning as it does now, which included that the request would compromise the potential utilization of an otherwise viable industrial area. The Planning Board recommended denial of the rezoning which was later denied by the City Council on July 21, 2003.

The subject property is located within the adopted Southeast Winston-Salem Area Plan (SEAP). The SEAP identifies the site as existing single-family land use on industrially zoned property. There is not a specific recommendation for this site. However, the SEAP recommends consolidating industrial uses at existing locations along Martin Luther King Jr. Drive. Legacy recognizes the scarcity of “greenfield” industrial sites and recommends stimulating redevelopment and increased economic activity on older, abandoned, or underdeveloped industrial sites.

Staff observes this section of Martin Luther King Jr. Drive to be a well-functioning industrial area with relatively minimal interruptions of commercial traffic. The previously mentioned LB-S site was recommended for approval by staff due to its design qualities and opportunity to provide a small mixture of service and restaurant uses to the surrounding employment base. It was not intended to set a precedent for additional commercial zoning in the area. Staff’s concern is that by introducing additional commercial zoning into the area, the industrial development character and potential may become unnecessarily compromised. Staff is also aware of three Urban Activity Centers (UAC’s) located near the site along Waughtown Street with the Waughtown/Thomasville Community Activity Center being the closest. Staff feels that these UAC’s are the appropriate locations for additional commercial development near the Industrial Corridor along Martin Luther King Jr. Drive.
FINDINGS

1. *Legacy* recognizes the scarcity of “Greenfield” industrial sites and recommends stimulating redevelopment and increased economic activity on older, abandoned, or underdeveloped industrial sites.

2. The Southeast Winston-Salem Area Plan does not recommend changing the zoning of this property.

3. The request would compromise the potential utilization of an otherwise viable industrial area.

STAFF RECOMMENDATION

Zoning: **DENIAL**.

Aldea Douglas presented the staff report.

PUBLIC HEARING

FOR: None

AGAINST: None

WORK SESSION

During discussion by the Planning Board, the following points were made:

1. We need to preserve as much industrial land as possible.

2. We support business development in this area.

3. It would be nice to hear from the petitioner who apparently doesn't have enough interest to show up.

MOTION: Carol Eickmeyer moved denial of the zoning map amendment.

SECOND: Jimmy Norwood

VOTE:

FOR: Clark, Eickmeyer, Folan, King, Lambe, Mullican, Norwood, Smith

AGAINST: None

EXCUSED: None
Written Comments Made By Planning Board Members:

Carol Eickmeyer: I voted to deny - in support of staff recommendation. Apparently there was acceptance of this decision because the property owner did not attend the meeting.

Arnold King: The Planning Board voted unanimously to deny the request of Wayne A. Hairston and Marlene Hairston in part because the petitioner did not even attend the public hearing. Although Staff recommended denial of this request, I would personally tend to support more economic development activity, either LI or LB, on Martin Luther King Jr. Drive. There are other members of the Planning Board who would probably share this opinion. It is difficult, however, for us to vote against a Staff recommendation when the petitioner does not even take the initiative to appear before the Planning Board to present his/her case.
