HISTORY

Relevant Zoning Cases:

1. W-2111; approved December 10, 1996; from GI to LI-S (Child Day Care Center); current site; north side of Tower Street between Martin Luther King, Jr. Drive and Peachtree Street; 1.90 acres; Planning Board recommended approval. Staff recommended denial with site plan approval.

2. W-2467; approved May 7, 2001; from IP-S (Clubs and Lodges, Private) to LI and RS-9; west side of Peachtree Street (unopened) north of Simmons Street; 15.36 acres; Planning Board recommended approval; staff recommended denial.

3. W-1236; approved March 4, 1985; from R-4 to R-3-S (Dwellings: Two Family); west side of Stadium Drive (Hwy 109) north of Allen Street; 0.38 acres; Planning Board and staff recommended approval.
CONFORMITY TO PLANS

GMP Area (*Legacy*): GMA 2, Urban Neighborhoods
Relevant Comprehensive Plan Recommendation(s): *Legacy* recognizes the scarcity of “greenfield” industrial sites and recommends stimulating redevelopment and increased economic activity on older, abandoned, or underdeveloped industrial sites.

Relevant Development Guide Recommendation(s): The *SEAP* identifies the site as existing institutional land use on industrially zoned property. There is not a specific recommendation for this site. However, the SEAP recommends consolidating industrial uses at existing locations.

ANALYSIS

The subject request is to rezone a 1.9 acre parcel on the north side of Tower Street between Martin Luther King, Jr. Drive and Peachtree Street to General Industrial (GI). The site is currently zoned Limited Industrial District - Special Use [LI-S (Child Day Care Center)], and is bounded on three sides by property that is zoned GI. This property was zoned GI before it was rezoned in 1996 to LI-S (Child Day Care Center). At the time, staff was concerned about recommending a Day Care Center for a site that holds the potential for hazardous materials and potentially dangerous activities to be located nearby.

The site is bounded on three sides by property that is zoned General Industrial (GI). This area was once a thriving industrial location, served by rail and nearby collector streets. The GI zone in which it is located contains a number of structures once heavily utilized but whose use has diminished in recent years. GI zoning allows a wide range of industrial uses within the district, many of which require significant separation from other non-industrial activities.

Directly south of the site across Tower Street is Forest Park Elementary school and Forest Park which adjoins an older residential neighborhood that is itself seeking revitalization. Tower Street appears to be the dividing line between residential and industrial activity.

The *Southeast Winston-Salem Area Plan (SEAP)* identifies the site as existing institutional land use on industrially zoned property. *SEAP* recommends consolidating industrial uses at existing locations. *Legacy* recognizes the scarcity of “greenfield” industrial sites and recommends stimulating redevelopment and increased economic activity on older, abandoned, or underdeveloped industrial sites. Staff feels that rezoning this site back to GI is compatible with uses found in the vicinity of the site.

FINDINGS

1. *Legacy* recognizes the scarcity of “greenfield” industrial sites and recommends stimulating redevelopment and increased economic activity on older, abandoned, or underdeveloped industrial sites.
2. *SEAP* recommends consolidating industrial uses at existing locations.

3. GI is compatible with uses found in the vicinity of the site.
