CONFORMITY TO PLANS

GMP Area (Legacy): Urban Neighborhoods (GMA 2).
Relevant Comprehensive Plan Recommendation(s): For Urban Neighborhoods, Legacy encourages quality infill development, greater residential densities where appropriate, neighborhood retail, community services, and historic preservation, rehabilitation and reuse of existing structures.
Area Plan/Development Guide: The site is not within the boundaries of an area plan or development guide.

COMMUNITY DEVELOPMENT

Certified Area/Name: Liberty-Patterson Redevelopment Area.
Type of Certification: The area was certified as a non-residential redevelopment area in January 2000.
Redevelopment Recommendation(s): The Liberty-Patterson Redevelopment Plan, Phase II recommends acquisition of these properties, rezoning to the RS-7 District, replatting of the lots, and redevelopment for single family residential use. The City has acquired the properties and after evaluation of their condition has entered into an agreement with the Housing Partnership to rehabilitate two of the 13 structures. The balance of the structures have been or will be demolished.

HISTORIC RESOURCES REVIEW

Known Historic Resources: As part of the review of the activities of the Liberty-Patterson Redevelopment Plan Phase II in 2000, City-County Historic Resources staff reviewed this area and found that it retained a high level of historic architectural integrity. However, due to the severely deteriorated condition of some of structures, particularly on 14th Street, staff felt that selective demolition and sensitive infill could serve to stabilize the neighborhood as a whole and promote rehabilitation of surrounding historic structures.

ANALYSIS

The request is to rezone 2.25 acres located on the northwest and southwest corners of Ivy Avenue and Fourteenth Street from RM-5 to RS-7. The site is located within a traditional urban neighborhood which has been targeted for residential redevelopment. Single family homes zoned RM-5 and RSQ adjoin the site to the north, northeast, south and west. Industrial zoning and uses are located to the southeast and the Waste Management recycling facility zoned HB and GI is located one block south, on the east side of Patterson Avenue.

The properties consist of 13 lots all of which are located within the Liberty-Patterson Redevelopment Plan, Phase II and have been acquired by the City of Winston-Salem. The plan recommends rezoning to RS-7, replatting the lots, and redevelopment for single family residential use. The majority of the houses have been demolished due to the level of deterioration. However, two structures will be rehabilitated.

Staff concurs with the adopted plan and sees the dimensional and use standards of the RS-7 District as more in keeping with the established development pattern than those of the existing RM-5 District. For example, characteristic of many pre-WWII neighborhoods, the front yard setbacks in the general area are relatively shallow, thereby strengthening the connection to and surveillance of the public realm, i.e. the sidewalk and street, while in turn, affording a more spacious and private rear yard. The front yard setback in the RM-5 District 25 feet as opposed to 15 feet within the RS-7 District. Staff recommends approval of the subject request which is consistent with the Liberty-Patterson Redevelopment Plan, Phase II.

FINDINGS

1. Legacy encourages greater residential densities where appropriate and historic preservation, rehabilitation and reuse of existing structures.

2. The site is not within the boundaries of an area plan or development guide.
3. The *Liberty-Patterson Redevelopment Plan, Phase II* recommends acquisition of the subject property, rezoning to RS-7, replatting the lots, and redevelopment for single family residential use.

4. The land use and dimensional standards of the proposed RS-7 District are more in keeping with the established development pattern than those of the existing RM-5 District.
