ANALYSIS

The first phase rezoning of the current site was approved on November 15, 1993. The petition included several business uses including Shopping Center, and was approved as a TWO PHASE petition. Normal procedure would be for the City-County Planning Board to approve the Final Development Plan for a TWO PHASE petition. However, the City Council attached a condition that the Final Development Plan be approved by both the Planning Board and the City Council.

The site is located on the east side of Summit Square Boulevard south of Hanes Mill Road. The petitioner has proposed internal connections to adjacent outparcels. The request meets the requirements of the original zoning and proposes good connectivity with other properties. Therefore, staff recommends approval of this Final Development Plan.
