Relevant Development Guide Recommendation(s): Recommended that this area be institutional as Forsyth Hospital expands.

ANALYSIS

Novant Health, Inc. and the Winston-Salem Forsyth County Board of Education have submitted this rezoning request for two tracts of land from RMU-S and IP to C. Some of the uses Novant Health would like are not allowed in the RMU district but are allowed in the C district. C zoning would make these tracts consistent with the rest of the property owned by Novant Health, Inc.

As this is a general use petition, staff must evaluate all possible uses for this site. The property has been utilized in a medical capacity for many years and is recommended to continue to do so in the Ardmore Area Plan.

[NOTE: Due to a combination of not having complete information as well as an inability to access Tract 1 for a site visit during "sign check", staff mistakenly believed Tract 1 was unutilized by the Winston-Salem/Forsyth County School System. Staff review was conducted with this understanding. January 23, 2002]

Campus zoning would support expansion of the medical facility. There is a mixture of zoning classifications and uses in the area. The area plan originally also called for an extension of Bethesda Road to Silas Creek Parkway as well as a connection from the site to the Forsyth Technical Community College Campus to the east. The Bethesda Connector was taken off the Thoroughfare Plan by the Board of Transportation on October 8, 1993.

Rezoning the two tracts to C would not negatively impact the surrounding area. There is a large number of medical offices in the area, as well as other uses consistent with this request. The Ardmore Area Plan calls for the expansion of the medical facility on this site with adequate screening and setbacks from adjacent residential. Staff recommends approval.
FINDINGS

1. Rezoning request for two tracts of land totaling 1.81 acres from RMU-S and IP to C.

2. C zoning would make these tracts consistent with the rest of the property owned by Novant Health, Inc.

3. The property has been utilized in a medical capacity for many years and is recommended to continue to do so in the Ardmore Area Plan.
