ANALYSIS

The subject property is the Meredith Woods subdivision. Through the subdivision review process, the petitioners agreed to voluntarily petition for annexation into the City of Winston-Salem. Currently an annexation petition for the subject property is pending before the Board of Aldermen. The current rezoning request consists of 88.98 acres located at the north terminus of Mae-Len Drive south of South Fork Muddy Creek and also north of Barnes Road. The Planning Board's role in reviewing this petition pertains only to the zoning jurisdiction. The decision to annex the property is made by the Board of Aldermen upon recommendation by the Public Works Committee.

This proposal will not change the permitted uses of the subject property, but will reclassify the newly incorporated property (once finalized) from its present Forsyth County zoning classification to the equivalent City of Winston-Salem zoning classification. The two zoning classifications are equivalent.
and there are no changes in development rights or constraints.

The property owners were notified of this zoning classification change by certified mail and the certified receipts are on file in the zoning docket.
