ANALYSIS

The petitioner has submitted this request to rezone 0.84 acre from RS-9 to LB-S. The site is located on the northwest corner of Jonestown Road and Eastwin Drive. Many of the properties fronting Jonestown Road have been rezoned to LB-S over the past several years. With the widening of Jonestown Road, it was apparent that these properties were more suitable for commercial uses. Staff has worked with the petitioner concerning this site on a number of occasions. The area plan makes
specific recommendations regarding site plan issues and permitted uses. The petitioner requested a continuance from the July 11, 2002 Planning Board meeting to address these site plan and use issues. The current site plan addresses staff’s concerns regarding interior access to the north. The petitioner has also agreed to eliminate uses that were inconsistent with the area plan recommendations. The site plan and requested uses are now consistent with area plan and comprehensive plan recommendations. Staff concludes that with the proposed site plan conditions the request will be consistent with the character of the area. For the reasons listed, staff recommends approval with the proposed site plan conditions.

**FINDINGS**
