CONFORMITY TO PLANS

GMP Area (Legacy): GMA 2, Urban Neighborhoods.

Relevant Comprehensive Plan Recommendation(s): Encourage quality infill development, greater residential densities where appropriate, neighborhood retail, and community services. Create communities that are friendly and accessible places for older adults and disabled people. Permit services near where people live including places of worship and other institutions in a manner that is compatible with surrounding uses, and provide retail and services uses within walking and bicycling distance of neighborhoods. Consider the needs of older adults and disabled people in the design and redesign of public facilities, and residential, commercial and institutional developments.

ANALYSIS

The current request is to rezone 9.95 acres from LI-S to GB-S (Adult Day Care Center; Services, Personal; Offices, Miscellaneous; and Recreation Services, Indoor - TWO PHASE). The site is located on the south side of Thirtieth Street between Shorefair Drive and Millbrook Road. The first phase of this petition is for the approval of uses, the establishment of access points, and the establishment of any necessary site plan conditions which will apply to the Final Development Plan. Staff is supportive of the uses indicated as the first phase of this petition.

For the design portion, or Final Development Plan, staff would like to stress that we will be looking for strong relationships of buildings to the street and other buildings. In addition, connections to the surrounding neighborhood, especially to the south, will be of great importance. Parking should be minimized as part of the design and the provision of open space would be beneficial to the project as
well as to the surrounding neighborhood. To accomplish this, it is encouraged that a "campus type" master plan for the entire site be developed. Staff will be available to assist with the design should the petitioner desire.

FINDINGS

1. The first phase of this petition is for the approval of uses, the establishment of access points, and site plan conditions which will apply to the Final Development Plan.

2. Staff will be looking for certain design elements as part of the second phase of this petition.

3. A Traffic Impact Study will be required with the submission of Phase II.

STAFF RECOMMENDATION

Zoning: APPROVAL.
Site Plan: Staff recommends the following conditions:

C PRIOR TO THE ISSUANCE OF BUILDING PERMITS
a. On site fire hydrant locations shall be approved by the City Fire Department in writing to the Inspections Division.

C PRIOR TO THE ISSUANCE OF OCCUPANCY PERMITS
a. All required fire hydrants shall be installed in accordance with the City of Winston-Salem Fire Department.

• OTHER REQUIREMENTS
  a. A Traffic Impact Study shall be submitted with the Final Development Plan application.
  b. Signage shall be limited to monument type sign with a maximum height of five (5) feet; exact number of signs to be determined during Final Development Plan review.
