CONFORMITY TO PLANS

Relevant Comprehensive Plan Recommendation(s):  Vision 2005 calls for the separation and buffering of commercial, office, and industrial uses from residential areas.

Relevant Development Guide Recommendation(s): This site lies within an area identified for low density residential use (under 4.7 units/acre). Residential land use near Northampton Drive and White Rock Road should be protected from encroachment of nonresidential development due to the proposed eastern leg of the Northern Beltway and the proposed Walkertown Activity Center.

**ANALYSIS**

Saint Mathews Apostolic Church is requesting the rezoning of their property, located on New Walkertown Road, from RS-9 to RM-8-S (Child Day Care Center; and Church or Religious Institution, Neighborhood). The purpose of the request is to allow the existing day care facility to be operated by a separate entity other than the church.

The church's entire ownership was originally submitted; however, staff recommended that only the pertinent area of the property be included in the petition. The applicant agreed and revised the site plan prior to the Planning Board public hearing.

It is staff's opinion that a change in the operation and management of the day care will have a minimal impact on the surrounding properties. Even if located on a separate site, the existing day care facility would be an appropriate and compatible use within this local setting.

The day care and church provide appropriately scaled services to the neighborhood and therefore approval is recommended.

**FINDINGS**

1. Existing church and day care operation have appropriate buffering and separation from adjacent residential uses as recommended in *Vision 2005*.

2. No expansions or encroachments are proposed for either facility.

3. The day care and church are existing community facilities which provide a service to the surrounding neighborhood.

**STAFF RECOMMENDATION**

Zoning: **APPROVAL**.

Site Plan: Staff certifies that **the site plan meets all code requirements**, and recommends the following conditions:

- **PRIOR TO THE ISSUANCE OF OCCUPANCY PERMITS**
  a. Developer shall dedicate twenty (20) feet of new public right-of-way in fee simple to the North Carolina Department of Transportation (NCDOT) along the entire frontage of the property on New Walkertown Road.
b. A fifteen (15) foot type II bufferyard shall be installed where this property adjoins RS-9 zoning in accordance with UDO Section 3-5.
c. Developer shall install fire hydrants in accordance with the City Fire and Utilities Departments.

[For information purposes only: The petitioner's site is located in the suburban neighborhoods area of Legacy's growth management plan. Legacy calls for walkable mixed use development with careful attention to making uses compatible.]
