CONFORMITY TO PLANS

GMP Area (Legacy): Urban Neighborhoods Area.

Relevant Development Guide Recommendation(s): The Akron/Glenn Area Site Study within the Carver Road/Ogburn Station Development Guide identifies this site for potential industrial zoning.

ANALYSIS

This is a request to rezone 0.83 acre from GI and GB to GB. The site is surrounded by a mixture of uses and zoning classifications. There is a good deal of industrial and HB zoned property used residentially. Residentially zoned property is across Glenn Avenue.
Glenn Avenue serves as a dividing line between industrial zoning on the southeast and commercial and residential zoning on the northwest. The subject site, however, is oriented away from the industrial uses and is separated from them by topography.

GB is an appropriate zoning because a large portion of the property is currently GB and the site is oriented towards Glenn Avenue and away from the adjoining industrial uses. Additionally, there are existing business uses and zoning across Glenn Avenue.
