CONFORMITY TO PLANS

GMP Area (Legacy): Suburban (GMA 3)
Relevant Comprehensive Plan Recommendation(s): The affordable housing objective in Legacy is to provide a variety of quality housing types for all income levels and foster a climate that is hospitable to affordable housing development. Legacy states that manufactured homes can help fill the need for affordable housing.
Area Plan/Development Guide: This site is not within the boundaries of a development guide or area plan.

ANALYSIS

The current request is to rezone a 0.52 acre parcel on the west side of Overdale Road from RS-9 to MH. Currently on the site is a site built house with a single wide manufactured home, previously occupied by a blood relative, in the rear yard.

While the MH general use district would allow single wide manufactured homes without any roof
pitch and masonry underpinning requirements, staff sees the specific property in question, along with the adjoining lots to the south and west, as transitional properties between the larger lot site built homes to the north and the Rexam industrial facility to the south. In addition the subject property is surrounded by five other existing single and double wide manufactured homes. The property is also adjacent to existing MH zoning along the western and southern property lines.

FINDINGS

1. Legacy states that manufactured homes can help fill the need for affordable housing.

2. This site is not within the boundaries of an area plan or development guide.

3. Site is adjacent to multiple other single and double wide manufactured homes and serves as a transitional use between the larger lot site built houses to the north and the industrial facility to the south.

4. The site is contiguous to existing MH zoning to the west and south of the property.
