**ANALYSIS**

Winston-Salem State University has submitted this petition to rezone 3.49 acres from RM-5 and GI to C. Winston-Salem State University is a rapidly growing institution with needs for rezoning to expand their services to students. The expansion of the University is a form of redevelopment. The area greatly needs investment in forms such as this. There was some concern among staff that the University may pursue the closure of Cromartie Street and Cleveland Avenue, and states that if such closure takes place the petitioner is advised that access arrangements must be made to the owners of the GI zoned property adjacent to this site.

The Southeast Area Plan is currently being written. As such, there are no specific area plan recommendations for the site at this time. *Legacy* calls for the expansion of higher educational institutions in the area.

Redevelopment of this site would positively impact the area. Expansion of the State's Universities positively impacts the entire population of the State as well as that of the immediate area. Therefore, staff recommends approval.

**FINDINGS**

1. *Legacy* calls for the expansion of higher educational institutions in the area.
2. There are no specific area plan recommendations for the site at this time.
3. Winston-Salem State University surrounds the site to the east and south, this request would be consistent with surrounding uses.
4. Redevelopment of this site would positively impact the area
