ANALYSIS

Currently an annexation petition for the subject property is pending before the Board of Aldermen. The request consists of a 33.26 acre subdivision, (Stratford Crossing), located on the northwest side of Stratford Road approximately 700 feet north of Fraternity Church Road. The subdivision was originally approved in 1995 with one of the conditions being that the developer shall apply for voluntary annexation prior to final plat approval. The request is therefore to rezone the property from County RS-7 to City RS-7.

The Planning Board's role in reviewing this petition pertains only to the zoning jurisdiction. The decision to annex the property is made by the Board of Aldermen upon recommendation by the Public Works Committee.

This proposal will not change the permitted uses of the subject property, but will reclassify the newly incorporated property (once finalized) from its present Forsyth County zoning classification to the equivalent City of Winston-Salem zoning classification. The two zoning classifications are equivalent and there are no changes in development rights or constraints.

The property owner was notified of this zoning classification change by certified mail and the certified receipt is on file in the zoning docket.
