HISTORY

W-1885; R-6 to B-3-S (converted to HB-S in the UDO); approved November 15, 1993; this was the original zoning petition for a larger tract of land, including this property. This property was approved for multiple business uses including shopping centers - TWO PHASE. Both the Planning Board and staff recommended approval of this rezoning petition. The following are the conditions approved in this rezoning petition which are relevant to this Final Development Plan.

a. Final Development Plans approved by the City-County Planning Board and the Board of Aldermen prior to the issuance of building permits. Additional conditions may be required by the City-County Planning Board during the review and approval of the Final Development Plans.

b. All median breaks and access points to Hanes Mill Road extension shall be approved by the Public Works Department of the City of Winston-Salem during the review and approval of Final Development Plans. The right-of-way width, construction standards, and access points to Summit Square Boulevard shall also be determined by the Public Works Department of the City of Winston-Salem during the review and approval of the Final Development Plans.

CONFORMITY TO PLANS

GMP Area (Vision 2005): Area 3: Urban
Relevant Comprehensive Plan Recommendation(s): Development of activity nodes at planned locations; separation and buffering of commercial from residential uses; improvement of existing commercial areas, such as consolidation of driveways, improved landscaping, and reduced or more consistent signage; and encouraging consolidation of some commercial uses at shopping centers.
Area Plan/Development Guide: The site does not lie within a development guide study area.

Greenway Plan: None

ANALYSIS

The first phase rezoning of the current site was approved on November 15, 1993. The petition included several business uses including Shopping Center, and was approved as a TWO PHASE petition. Normal procedure would be for the City-County Planning Board to approve the Final Development Plan for a TWO PHASE petition. However, the Board of Aldermen attached a condition that the Final Development Plan be approved by both the Planning Board and the Board of Aldermen.
The current site is located at the southeast corner of North Summit Square Boulevard and Hanes Mill Road and was originally approved as one of several TWO PHASE outparcels on the south side of Hanes Mill Road. As currently constructed North Summit Square Boulevard terminates approximately 160 feet south of the property and is eventually proposed to connect with the northern terminus of Summit Square Boulevard near the existing Wal-Mart located on the east side of University Parkway. A median break in Hanes Mill Road currently exists at its intersection with North Summit Square Boulevard and is intended to serve as the primary vehicular access to outparcels.

As submitted, this Final Development Plan meets all the conditions of the original zoning including the requirement that only one driveway connection be permitted on the east side of North Summit Square Boulevard. To meet this requirement, the current site plan shows shared driveway access to the vacant outparcel contiguous to and immediately south of the current site.

**STAFF RECOMMENDATION**

Final development Plan: **APPROVAL**.

Site Plan: Staff certifies that the site plan meets all code requirements and recommends the following conditions:

- **PRIOR TO THE ISSUANCE OF GRADING PERMITS**
  a. Developer shall have a storm water management study submitted for review by the Public Works Department of the City of Winston-Salem. If required, an engineered storm water management plan shall be submitted and approved by the Public Works Department of the City of Winston-Salem.

- **PRIOR TO THE ISSUANCE OF OCCUPANCY PERMITS**
  a. One (1) freestanding monument type ground sign shall be permitted in the southeast corner of the intersection of Hanes Mill Road and North Summit Square Boulevard with a maximum height of five (5) feet and a maximum copy area of thirty-six (36) square feet.
  b. Developer shall install a minimum five (5) foot wide sidewalk to City of Winston-Salem specifications along the entire length of the property along Hanes Mill Road and North Summit Square Blvd.
  c. Any storm water management devices shall be installed.

C **OTHER REQUIREMENTS**

a. This Final Development Plan must be approved by the Board of Aldermen prior to the issuance of any permits.

b. As a condition of the first phase of zoning for the entire development, this outparcel shall share a joint driveway easement with the outparcel to the south and provide cross access via a driveway stub connection to the outparcel located to the east of the property.
[For information purposes only: The draft Legacy plan identifies the site as lying in the Suburban Neighborhoods area of the Municipal Services Area of the Growth Management Plan. This area contains most of the undeveloped land for future residential, commercial and industrial uses, and is appropriate for future urban and suburban development.]
