ANALYSIS

The petitioner has entered a rezoning request from Limited Industrial (LI) to General Office (GO). The majority of the area surrounding the subject site is presently zoned LI, General Industrial (GI), and Institutional and Public (IP). Currently the subject site is vacant and situated between the landfill and Sara Lee. It is also west of Hanes Mill Road across from Sci Works and Americraft Carton, Inc. The driveway of Americraft Carton, Inc. has been recently relocated directly west across Hanes Mill Road from subject site.

Hanes Mill Road experiences a great amount of traffic from the landfill and other surrounding GI uses. There are traffic concerns due to the unique location of the exit lane for Sara Lee being directly in front of the subject site. These concerns will be addressed upon development of the project site and issuance of driveway permits by both the North Carolina Department of Transportation and the City of Winston-Salem. Both agencies will review any requested driveway permits for safety and circulation.

As the subject site is currently owned by the City of Winston-Salem, the staff suggests that as part of the terms of sale of the land that the Community Appearance Commission (CAC) review the site for any subsequent building. The CAC review for the subject site is not meant to serve as a precedent for all City property which may come up for sale, but as the subject site is a fairly large tract of land in a visible location, CAC review seems reasonable in this case.

Staff is of the opinion that GO is an appropriate zoning for this location. Uses allowed in GO are not inconsistent with the surrounding area. Therefore, the staff recommends approval.

FINDINGS

1. The petitioner is requesting to change zoning from LI to GO, which is appropriate for the area.

2. Traffic safety and circulation concerns will be addressed by NCDOT and City of Winston-Salem upon issuance of driveway permits.

3. GO is an appropriate zoning and its allowable uses are not inconsistent; therefore staff recommends approval.

4. As the subject site is currently owned by the City of Winston-Salem, the staff suggests that as part of the terms of sale of the land that the Community Appearance Commission (CAC) review the site for any subsequent building.
STAFF RECOMMENDATION

Zoning: APPROVAL.

[For information purposes only: Draft Legacy Comprehensive Plan: The petitioner's site is located in the suburban growth management area of the Legacy growth management plan. The policies for this area include mixed use activity nodes at planned locations and preservation of stable neighborhoods.]
