HISTORY

Relevant Zoning Cases:

1. W-2281; RS-12 to RS-7; approved January 4, 1999; south side of Hutchins Street across from Selena Street; 1.30 acres; Planning Board and staff recommended approval.

2. W-2161; RS-9 to MH-S (Manufactured Housing Development); approved July 7, 1997; Northeast side of Bethabara Road, southeast of Shattalon Drive; 27.57 acres; Planning Board and staff recommended approval.

3. W-2015; RS-9 and MH to MH-S (Manufactured Housing Development); approved December 4, 1995; northeast side of Bethabara Road, west of current property; 12.93 acres; Planning Board and staff recommended approval.

CONFORMITY TO PLANS

GMP Area (Vision 2005): Area 3: Urban
Relevant Comprehensive Plan Recommendation(s): Preservation of stable neighborhood areas; provision of new residential development at scale with surrounding development; coordinate residential development with adequate level of services; encourage appropriate infill of existing undeveloped lots in urban areas.
Area Plan/Development Guide: The site is not located within a development guide study area.

ANALYSIS

The subject request is a general use petition to change the zoning on 0.73 acre of land from RS-9
to RS-7. The key differences would be a reduction in the minimum lot area and width requirements and a reduction in the building setback requirements. The site is the road-frontage portion of a 2.21 acre lot and is large enough to be subdivided into four 7,000 square foot lots. The remainder of the tax lot, which would remain RS-9, includes an area in the floodplain of Bethabara Branch.

Staff has considered a number of factors when reviewing recent petitions for RS-7 “infill” zoning. These factors include character/streetscape of the block and the opposite block face; the surrounding lotting pattern; the surrounding zoning; access to services; and proximity to transit. In some cases, infill at higher densities than the existing lotting pattern can be achieved under the existing zoning.

Although staff supported a previous RS-12 to RS-7 request on the south side of Hutchins Street (W-2281), we are in the process of refining criteria for appropriate infill development. The benefits of more dense development must also be weighed in light of a project’s compatibility with surrounding uses and development patterns.

Many of the homes in the neighborhood are developed on properties that are larger than the minimum required in the RS-9 district, so the proposed zone change and density allowed would be significantly more dense than the rest of the neighborhood. Because the proposed zoning would accommodate lots that are smaller than what is allowed in the existing RS-9 zoning and significantly smaller than the surrounding lotting pattern, staff is of the opinion that RS-7 is not appropriate for the site.

**FINDINGS**

1. The subject request is a general use petition to change the zoning on 0.73 acre of land from RS-9 to RS-7.

2. The key differences between RS-9 and RS-7 would be a reduction in the minimum lot area and width requirements and a reduction in the building setback requirements.

3. Staff has developed a list of factors which are considered when reviewing petitions for RS-7 zoning.

4. When considering infill development, compatibility with the surrounding neighborhood must be balanced with the benefit of more compact development in the municipal services area.

5. Many of the homes in the neighborhood are developed on properties that are larger than the minimum required in the RS-9 district, so the proposed zone change and density allowed would be significantly more dense than the rest of the neighborhood.

**STAFF RECOMMENDATION**

Zoning: **DENIAL.**
[For information purposes only: The draft *Legacy* plan identifies the areas within which the project site is located as the Urban Neighborhood area of the Municipal Services Area. The Urban Neighborhood Area consists of the older neighborhoods and commercial areas in Winston-Salem. A more compact urban development pattern is a goal of the plan; quality infill development is a tool to meet that goal.]

**PUBLIC HEARING**

**FOR:**

Anthony Krofchik, 2892 Friendship-Ledford Road, Winston-Salem, NC  27127

I'm in the process of purchasing a couple of acres of land here and would like to rezone this portion of it to build affordable, stick-built housing.

This property is surrounded by apartments.

Some of the nearby properties either don't meet or barely meet minimum RS-9 standards.

There are services within one mile of the site, including a bus stop.

Submitted signatures supporting his request.

**AGAINST:**

Harvey King, 5030 Pinewood Drive, Winston-Salem, NC  27106

I live just north of this site.

No one I talked to saw any signs about the new building in this area, northwest of this site, so there wasn't any opposition.

Submitted petition of 24 signatures from people on Pinewood Drive opposing this request.

Our opposition is to the proximity of these houses to each other and the road.

Mr. King noted that Mr. Harold Hamilton was present to oppose the petition but had to leave to get back to work.

**WORK SESSION**

During discussion by the Planning Board, the following points were made:

1. Side yard requirements under RS-7 are combined of 15' with neither one less than 5'. The proposed lots would be 58' wide.

2. Steve Johnson said that in this case, going to a 50' lot size would be a significant change in the character of the neighborhood. Even though the four units in RS-7 zoning around the corner are close together, the rest are not.
MOTION: Steve Johnson moved denial of the zoning map amendment.
SECOND: Kem Schroeder
VOTE:
  FOR: Bost, Johnson, King, Powell, Rousseau, Schroeder, Williams
  AGAINST: Avant, Snelgrove
  EXCUSED: None
