Kirk Road north of Kester Mill Road; 0.83 acre; Planning Board and staff recommended
approval.
CONFORMITY TO PLANS

GMP Area (Vision 2005): Area 3: Urban
Relevant Comprehensive Plan Recommendation(s): Separation and buffering of commercial from residential uses.
Area Plan/Development Guide: The project is not located within a development guide study area.

ANALYSIS

The subject site consists in part of an existing LO-S office use. The petitioners propose expanding the existing uses and adding approximately 0.3 acre to the site. Although the proposed office uses are allowed in the LO zoning district, the “Services, Business A” use is not; therefore, the request is for LB-S zoning.

The area to the north and east is principally a commercial neighborhood, with a combination of General Business, Highway Business, Limited Industrial, and Limited Office zoning in the immediate vicinity along with RM-U-S land that abuts the site. To the west and south are large undeveloped tracts zoned RS-9. The existing Limited Office district zoning at this site has provided a transition from the commercial uses to the north and east of the site to the residentially zoned land to the west and south.

Appropriate buffering along the portion of the site that adjoins RS-9 zoning should be adequate to maintain the existing mixed use character of the neighborhood while protecting future possible residential development to the west and south. The slight increased intensity of use on the site is not expected to have a noticeable effect on the surrounding area.

FINDINGS

1. The subject site consists in part of an existing LO-S office use. The petitioners propose expanding the existing uses and adding approximately 0.3 acre to the site.

2. This petition is consistent with the goals of Vision 2005.

3. The surrounding area currently contains both business uses to the north and east, and residential zoning to the west and south. The Limited Business zoning district proposed for the site will continue to provide an adequate transition between the two.

4. Adequate buffering is proposed to meet requirements and maintain the separation between the site and adjoining residential property.
STAFF RECOMMENDATION

Zoning: **APPROVAL.**

Site Plan: Staff certifies that the site plan meets all code requirements, and recommends the following conditions:

- **PRIOR TO THE ISSUANCE OF GRADING PERMITS FOR THE FUTURE PHASE**
  a. Developer shall have a storm water management study submitted for review by the Public Works Department of the City of Winston-Salem. If required, an engineered storm water management plan shall be submitted and approved by the Public Works Department of the City of Winston-Salem.

- **PRIOR TO THE ISSUANCE OF OCCUPANCY PERMITS**
  a. Developer shall widen Kester Mill Road with curb and gutter 18 feet from centerline through the frontage of the property to the specifications of the Public Works Department of the City of Winston-Salem.
  b. A fifteen (15) foot Type II bufferyard shall be installed along the western and southern property lines.
  c. The chain link fence shown on the site plan shall be coated with either black or green vinyl.

- **OTHER REQUIREMENTS**
  a. Signage shall be limited to one (1) monument sign with a maximum height of five (5) feet.

*[For information purposes only: The draft Legacy plan identifies the area within which the project lies as the Suburban Neighborhoods area of the Municipal Services Area. The Suburban Neighborhoods area contains most of the undeveloped land appropriate for future residential, commercial, industrial, and institutional development. The plan recommends future urban and suburban development as appropriate.]*
