COUNTY ORDINANCE - GENERAL USE

Zoning Petition of Richard Sheets and Gary Sheets, Docket F-1568

AN ORDINANCE AMENDING
THE FORSYTH COUNTY
ZONING ORDINANCE AND THE
OFFICIAL ZONING MAP OF THE
COUNTY OF FORSYTH,
NORTH CAROLINA

BE IT ORDAINED by the Board of County Commissioners of the County of Forsyth as follows:

Section 1. The Zoning Ordinance of the *Unified Development Ordinances* of the County of Forsyth, North Carolina, and the Official Zoning Map of the County of Forsyth, North Carolina, are hereby amended by changing from **RS40** to **RS20** the zoning classification of the following described property:

PIN# 5883-18-6962

Section 2. This ordinance shall become effective upon adoption.

| **Neighborhood Contact/Meeting** | Attachment A includes a summary of the applicant’s outreach efforts. |
| **Zoning District Purpose Statement** | The RS20 District is primarily intended to accommodate single family detached dwellings in suburban areas and may also be applicable to older, large lot development constructed prior to the effective date of this Ordinance. The district is established to promote orderly development in areas where public water is available. This district is intended for application in GMAs 2, 3 and 4. |

| **Applicable Rezoning Consideration from Chapter B, Article VI, Section 6-2.1(R)** | (R)(1) - **Is the proposal consistent with the purpose statement(s) of the requested zoning district(s)?** Yes, the subject property is located within GMA 3 and has access to public water and sewer. |

Applicable Rezoning Consideration from Chapter B, Article VI, Section 6-2.1(R)

(R)(2) - Is/are the use(s) permitted under the proposed classification/request compatible with uses permitted on other properties in the vicinity?

Yes, the majority of the surrounding area is currently residentially zoned.

Physical Characteristics

The site contains a variable topography with the eastern portion of the site sloping downward toward an existing creek.

Proximity to Water and Sewer

The site has access to public water and sewer.

Stormwater/Drainage

Concerns about stormwater runoff in the general area were raised by residents of the Waterford subdivision when F-1545 was being considered in 2014.

Watershed and Overlay Districts

The site is located within the Yadkin River WSIV Water Supply Watershed. The minimum lot size for new residential developments is 20,000 sf or under the Maximum Built-upon Area option, impervious surface coverage cannot exceed 24% of the total acreage.

Analysis of General Site Information

The subject property is 18.94 acres in size and is primarily undeveloped. Any future development on the site is subject to the Yadkin River watershed requirements.

<tr>

<tr>
<td>Lasater Road</td>
</tr>
</tbody>
</table>

Proposed Access Point(s)

Since this is a general use request, the exact location of access points is unknown. The site does have public road frontage on Lasater Road and any potential subdivision would be required to connect to Kilrush Road to the south.

Planned Road Improvements

The Comprehensive Transportation Plan recommends a two lane cross section with bike lanes and sidewalks for this portion of Lasater Road.

Trip Generation - Existing/Proposed

Existing Zoning: RS40
18.94 acres = 20 lots x 9.57 (Single Family Trip Rate) = 192 Trips per Day

Proposed Zoning: RS20 (if developed for single family lots)
18.94 acres = 41 lots x 9.57 (Single Family Trip Rate) = 393 Trips per Day

Sidewalks

There are no sidewalks along this section of Lasater Road.

Analysis of Site Access and Transportation Information

The subject property has direct access to Lasater Road and also has access to Kilrush Road to the south. Should this site develop as a subdivision, a vehicular connection to the south would be required. Lasater Road appears to have excess capacity to accommodate any additional traffic that may be generated from this site.

| Comments from the Village of Clemmons | “We always require special use zoning requests through the Village. I’m not sure how we would comment on a general use site due to the nature of not being able to require conditions. My assumption is they are coming back to you at a later date for a subdivision review. I can imagine our biggest concern is going to be stormwater.” |

<th>Analysis of Conformity to Plans and Planning Issues</th>
<th>The subject request would rezone 18.94 acres from RS40 to RS20. The site is primarily undeveloped; however, it is served with public water and sewer and fronts on Lasater Road which is a minor thoroughfare.</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>The site is located within Legacy’s 2030 Suburban Neighborhoods Growth Management Area where good design is encouraged as a tool and incentive for increased residential densities. The property is also located within the water supply watershed of the Yadkin River which includes limitations on the intensity of development in order to maintain the water quality of this regional resource. The Clemmons Comprehensive Plan recommends the subject property for cluster residential development with single family detached homes at a minimum density of two units per acre. Finally, the site abuts the Waterford neighborhood (which is zoned RS20) to the south and east.</td>
</tr>
</tbody>
</table>
Planning staff sees the proposed RS20 district as being generally consistent with the density recommendations of the Clemmons Comprehensive Plan and compatible with the development pattern of the properties located to the south and east. Staff recommends approval of the request.
