### Proposal

The petitioner is requesting to amend the Official Zoning Maps for the subject property from RS20 (Residential, Single Family District; 20,000sf minimum lot size) to LI (Limited Industrial District).

**NOTE:** General, special use limited, and special use district zoning were discussed with the petitioner(s) who decided to pursue the rezoning as presented. With a General Use, all uses in the District must be considered.

### Neighborhood Contact/Meeting

The application indicates that at the time of filing, no neighborhood/community meeting had been held.

### Zoning District Purpose Statement

The LI District is primarily intended to accommodate limited manufacturing, wholesaling, warehousing, research and development, and related commercial and service activities which, in their normal operations, have little or no adverse effect upon adjoining properties. The district is established to provide locations for industrial development in GMAs (Growth Management Areas) 1 (Center Cities), 2 (Urban Neighborhoods), 3 (Suburban Neighborhoods), 4 (Future Area) and Metro Activity Centers.

### Applicable Rezoning Consideration from Chapter B, Article VI, Section 6-2.1(R)

(R)(1) - Is the proposal consistent with the purpose statement(s) of the requested zoning district(s)?

The site is located along a major thoroughfare within GMA 3 and is directly adjacent to industrially zoned and developed properties on three sides.

## Applicable Rezoning Consideration from Chapter B, Article VI, Section 6-2.1(R)

(R)(2) - Is/are the use(s) permitted under the proposed classification/request compatible with uses permitted on other properties in the vicinity?

The uses permitted in the proposed LI district are compatible with the uses permitted within the adjacent LI zoned properties and less compatible with the single family residential uses permitted on the adjacent RS9 zoned properties.

## Physical Characteristics

The site is heavily wooded and has a gentle to moderate slope downward toward the southwest.

## Proximity to Water and Sewer

Public water and sewer are available to the site.

## Watershed and Overlay Districts

The site is not located within a water supply watershed.

## Analysis of General Site Information

The site has no development constraints such as watersheds, floodplains, or steep slopes.

## SITE ACCESS AND TRANSPORTATION INFORMATION

**Proposed Access Point(s)**

Because this is a General Use rezoning request with no site plan, the exact location of access points is unknown. The site does have access on Ridgewood Road.

**Planned Road Improvements**

The Comprehensive Transportation Plan recommends a three-lane cross section with wide outside lanes, curb and gutter, and sidewalks for Ridgewood Road.

**Trip Generation**

- **Existing Zoning: RS20**
  
  4.6 acres x 43,560 / 20,000 = 10 units x 9.57 (SFR Trip Rate) = 96 Trips per Day

- **Proposed Zoning: LI**

  No trip generation numbers are available for General Use zoning.

**Sidewalks**

There are no sidewalks located within the general area.

**Analysis of Site Access and Transportation Information**

The site has good access with extensive frontage on a major thoroughfare with close proximity to U.S. 311. Depending upon the specifics of how the site may be developed, staff would anticipate the possibility of an increase in traffic from this request as compared to a single family residential build-out scenario.
