Is/are the use(s) permitted under the proposed classification/request compatible with uses permitted on other properties in the vicinity?

The proposed IP District does allow several uses which are not allowed in the existing and surrounding RS-9 District. These uses include Club or Lodge; Nursing Care Institution; Funeral Home; Animal Shelter, Public; and Transmission Tower. However, the existing LB District, which would be removed under the subject request, allows several more intensive uses than is permitted under the proposed IP District.

The site has a gentle to moderate slope downward toward the southwestern portion of the site. The southern portion of the site is wooded.

Public water is available to the site. While public sewer is not currently available, it will be brought within close proximity of the site upon development of nearby Robinhood Village and Brookberry Farm.

No known issues

The site is not within a water supply watershed.

Provided suitable soils are available for on-site sewer assimilation, the site appears to be adequate for development under the proposed IP District.

Access to the site is adequate.

The subject general use request has no site plan depicting the access points. The church has an existing driveway onto Robinhood Road.

Robinhood Road from Shattalon Drive to the Northern Beltway from 2 lanes to 3 lanes; 2015-2020

Approximately 8.3 acres (RS-9) x 43,560 / 9,000 = 40 units x 9.57 (SFR Trip Rate) = 383 Trips per Day. No trip generation numbers available for remaining LB zoned portion of the site.

Proposed Zoning: IP
No trip generation numbers available for general use IP zoning.

No sidewalks are currently located in the general area; however, sidewalks will be installed along the north side of Robinhood Road and Olivet Church Road as per the 2005 MU-S rezoning.

Access to the site is adequate.
CONFORMITY TO PLANS AND PLANNING ISSUES

Legacy GMA
Growth Management Area 3, Suburban Neighborhoods

Relevant Legacy Recommendations
- Permit services near where people live including places of worship and allow institutions to grow to meet their needs in a manner that is compatible with surrounding uses.

Relevant Area Plan(s)
The subject property is not located within the boundaries of an area plan or development guide.

Applicable Rezoning Consideration from Chapter B, Article VI, Section 6-2.1(S)
(S)(3) - Have changing conditions substantially affected the area in the petition?
A 34-acre mixed use development located ±300’ northeast of the site was approved in 2005. Also a 795-acre mixed use development located ±400’ south was approved in 2003.

(S)(4) - Is the requested action in conformance with Legacy?
Yes

Analysis of Conformity to Plans and Planning Issues
The subject property is not located within the boundaries of an area plan. However, the site is directly southwest of a designated Community Activity Center (CAC). In 2005 the County Commissioners adopted an amendment to Legacy which moved the Northwest Metro Activity Center (MAC) to Country Club Road and designated the area north of Robinhood Road between Attanook Road and Olivet Church Road as the core of a CAC. A CAC is smaller in scale than a MAC and is characterized by a concentrated center of activity consisting of interactive residential, commercial and employment uses for the surrounding community. Designs within CACs should emphasize careful attention to building placement, walkability, parking design and location, urban open space, etc.

In more general terms, Legacy recommends allowing institutions to grow to meet their needs in a manner that is compatible with surrounding uses. The proposed IP District is an appropriate district for the existing church. While the subject general use request includes no site plan or list of proposed uses, staff sees the request as a reasonable trade-off with the removal of ±3.4 acres of existing general use LB zoned property.
