Floodplains: Floodway Fringe area is located about 350 feet to the northwest of the subject property.

Environmental Resources Beyond The Site: Because it is a general use petition, this proposal’s impact to environmental resources beyond the site cannot be determined at this time.

Water Supply Watershed: The subject property is not located in a water supply watershed.

TRANSPORTATION

Direct Access to Site: Cole Road; US 311

Street Classification: Cole Road – Minor Thoroughfare; US 311 - Freeway

Average Daily Traffic Count/Estimated Capacity at Level of Service D (Vehicles per Day):
- Cole Road between I-40 and Ridgewood Road = 3,100/11,100
- US 311 between Ridgewood Road and I-40 = 20,000/63,600

Planned Road Improvements: None

CONFORMITY TO PLANS

GMP Area (Legacy): Suburban Neighborhoods (GMA 3).

Relevant Comprehensive Plan Recommendation(s): The Legacy Plan supports quality economic development that is compatible with surrounding neighborhoods and done in an environmentally sensitive way.
Relevant Development Guide Recommendation(s): The *US 311 Area Plan* recommends that the subject property be developed for single-family residential uses.

**ECONOMIC DEVELOPMENT**

Prime Industrial Site: Yes.
Railroad Access: No.
Available Infrastructure: Excellent access to US 311 and I-40 via the Ridgewood Road interchange.

**ANALYSIS**

The request is to rezone 2.5 acres of undeveloped property from RS-9 to LI. The site is located on the southeast corner of Cole Road and US 311 along the north side of Thamer Lane. Fronting along Thamer Lane are approximately six single family homes zoned RS-9 and MH. Located directly across Cole Road, as well as US 311, are various industrial and distributional facilities zoned LI.

The site is not within the boundaries of a current area plan or development guide. It does fall within the boundaries of the *US 311 Area Plan*. The plan recommends residential use for the subject property. However, since its adoption in 1984, approximately 172 acres of RS-9 zoned property located directly across Cole Road, were rezoned to LI in 1990. Much of this area, known as the Centre 311 Business Park, has been developed accordingly with industrial uses.

It should be noted that one of the proposed alignments for the eastern section extension of the Northern Beltway would necessitate a reconfiguration of the existing US 311/Ridgewood Road interchange. This reconfiguration would relocate both the on and off ramps to the western side of Ridgewood Road. However, based upon present information, it does not appear that any additional right-of-way would need to be obtained from the subject property. On a smaller scale it should also be noted that a petition has been submitted to close a portion of the platted, unopened street which connects to Thamer Lane and projects into the subject property.

Based upon the surrounding development pattern and proximity to an interchange with US 311, staff recommends approval of the subject request.

**FINDINGS**

1. *Legacy* supports economic development that is compatible with existing residential neighborhoods and other business developments.

2. The *US 311 Area Plan*, which recommends the subject property be developed for single-family residential uses, was adopted prior to the completion of the new US 311 freeway and prior to extensive LI rezoning activity which is located across Cole Road from the subject property.
3. The subject property abuts US 311 and is in close proximity to an existing interchange.

**STAFF RECOMMENDATION**

Zoning: **APPROVAL**

**PUBLIC HEARING**
