CONFORMITY TO PLANS

GMP Area (*Legacy*): Future Growth Area (GMA 4).
Relevant Comprehensive Plan Recommendation(s): The site is in the Union Cross/Abbots Creek area. The Union Cross/Southeast Forsyth County Area Plan, called for in *Legacy*, is currently underway in this area. *Legacy* recommends that more intense region-serving commercial development be located at planned locations including the Kernersville South Metro Activity Center at I-40/NC66. Other local serving commercial development should be located at village centers that are compact and pedestrian-friendly.
Area Plan/Development Guide: The Union Cross/Southeast Forsyth County Area Plan is currently underway, but has no recommendations written at this time. *The US 311 Area Plan* (adopted in 1984 by CCPB, BOA and CC) is the active plan for the area until the new plan is completed and adopted.
Relevant Development Guide Recommendation(s): The Union Cross/Southeast Forsyth County Area Plan is currently being developed.

ANALYSIS

The petitioner is requesting a portion of his property, fronting on US 311 be rezoned from AG to HB. The remainder of his property, which fronts along Barney Road is not in the request. The site contains 2.61 acres.

The site is wedged between two HB sites which are poorly maintained, and is diagonally across High Point Road from an HB site, developed with self-storage units. Ideally, this site would adhere to the *US 311 Area Plan* recommendations and remain AG or some type of residential zoning. This is not realistic however, due to the uses and character surrounding the site. The request is unlikely to impose a more adverse effect on the surrounding area than the existing uses adjacent to the site.

Staff has concern for the area, but is of the opinion the area is not likely to be comprehensively redeveloped in the near future. This request, therefore will not affect the character of the area fronting High Point Road. Staff is often wary of general use HB zoning requests because of their possible intensity. In this case, due to the intensity of surrounding uses, and the proximity to other general use HB zoning, staff does not find special use necessary and recommends approval of the request as submitted.

FINDINGS

1. The petitioner is requesting a portion of his property, fronting on High Point Road be rezoned from AG to HB.

2. Staff has concern for the area, but is of the opinion the area is not likely to be comprehensively redeveloped in the near future.
3. The site is wedged between two HB sites which are poorly maintained, and is diagonally across High Point Road from an HB site, developed with self-storage units.

4. This request, therefore will not affect the character of the area fronting on High Point Road.
