**HISTORY**

Relevant Zoning Cases:

1. F-1253; from NSB-S (Multiple Business Uses - TWO PHASE) to NSB-S [Convenience Store; Car Wash; Restaurant (with drive-through service); and Motor Vehicle, Repair and Maintenance]; approved January 11, 1999; northeast corner of Union Cross Road and I-40 (current site); 1.34 acres; Planning Board and staff recommended approval.

2. F-1024; R-5 to B-3-S (Shopping Center - TWO PHASE) (converted to NSB-S in the UDO); approved April 27, 1992; multiple business uses were approved for TWO PHASE outparcels; the current site was one of the outparcels; Planning Board and staff recommended approval.

**CONFORMITY TO PLANS**

GMP Area (*Vision 2005*): Area 4A: Short-Range Growth.
Relevant Comprehensive Plan Recommendation(s): The objectives for the growth area in *Vision 2005* include provision of adequate roads, sewer and other services in support of development, and clustering commercial services.
Relevant Development Guide Recommendation(s): The petitioner site and surrounding land at the interchange is designed for use as a Neighborhood Shopping Center

**ANALYSIS**

The subject site was originally part of a shopping center approved on April 27, 1992 (zoning docket F-1024). The site was rezoned again on January 11, 1999, to allow some additional uses to the site, including Motor Vehicle Repair and Maintenance and Car Wash. The convenience store with automated car wash was developed on a portion of the site and the remainder of the site is proposed to be developed with a free-standing, self-operating car wash and additional retail development.

Access to the proposed development and all other outparcels is limited to private drives internal to the shopping center complex. No direct access is permitted via Union Cross Road. One of the access points to this site will be located across from Burger King on the access drive going into the shopping center from Union Cross Road. The site also must be surrounded on all sides by a
10' streetyard, including a 20' streetyard required under the Thoroughfare Overlay District requirements along the Interstate 40 ramp. Other restrictions in the original zoning include a maximum five-foot high monument sign with a maximum of 20 square feet of copy area for this outparcel and all other outparcel sites. Since there are only two structures proposed, staff will recommend only two freestanding monument signs on the property.

The current development proposal requests similar uses to those approved in the two previous rezonings of the property. If the shopping center had come in for rezoning under the UDO, the use would have been "Shopping Center" which would have permitted all uses in the NSB district. Adding the proposed uses will provide the shopping center with the flexibility to have different tenants without going back through the rezoning process again.

The development proposal meets all of the conditions of the original rezoning petition for an outparcel in the shopping center. The rezoning proposal also meets the recommendations in both Vision 2005 and the Interstate 40/Union Cross Development Guide. Finally, the project site will be required to develop under UDO development standards.

FINDINGS

1. The rezoning meets the recommendations in both the comprehensive plan and the Interstate 40/Union Cross Development Guide.

2. The rezoning proposal meets all the conditions of the original rezoning petition for an outparcel in this shopping center.

3. If this property was rezoned for a shopping center under the UDO, all of the uses would be permitted under the use "Shopping Center" and rezoning would not be required.

STAFF RECOMMENDATION

Zoning: APPROVAL.
Site Plan: Staff certifies that the site plan meets all code requirements, and recommends the following conditions:

• PRIOR TO THE ISSUANCE OF OCCUPANCY PERMITS
  a. A ten (10) foot landscaped streetyard shall be installed on the three sides of this property adjoining all roads and internal drives except along the frontage of the property on the Interstate 40 ramp. Along the frontage on this ramp, a twenty (20) foot streetyard shall be installed as required in the Thoroughfare Overlay (TO) District in the UDO.
• OTHER REQUIREMENTS
  a. As determined by the Forsyth County Erosion Control Officer, this property is not located within the Abbotts Creek WS III State Regulated Watershed.
  b. The only access to this site shall be on the private internal drives within the shopping center. The first driveway on the entrance road to this site off Union Cross Road shall be located opposite the Burger King driveway as shown on the site plan. No direct access is permitted on Union Cross Road.
  c. Two (2) freestanding ground signs shall be permitted on Union Cross Road for this entire property. Said signs shall be limited to monument types with a maximum height of five (5) feet and a maximum copy area of twenty (20) square feet.

[For information purposes only: The petitioner's site is designated as part of the Future Growth Area in the Legacy Comprehensive Plan. The plan calls for preparation of an area plan for the Abbots Creek watershed which is just getting underway. The plan will emphasize "conservation development". That concept recognizes the development potential of this area but calls for application of new planning tools like open space subdivisions and village commercial centers along with watershed protection measures and farmland preservation initiatives to conserve some of the open space and rural character while allowing for significant residential and non-residential development.]
