The following items shall be incorporated with respect to specific site conditions, in an Erosion and Sedimentation plan.

**LOCATION INFORMATION**

- Vicinity Map
- Project Location
- North Arrow
- Scale

**GENERAL SITE FEATURES**

- Property lines
- Legend
- Existing Contours
- Proposed Contours
- Limit and Acreage of Disturbed Area
- Planned and existing building locations and elevations
- Planned and existing road locations and names
- Lot and/or building numbers
- Land use of surrounding areas
- Wetlands [if any]
- Easements
- Streams, lakes, ponds, drainage ways, dams
- Boundaries of the total tract
- Stockpiled topsoil or subsoil locations

**SITE DRAINAGE FEATURES**

- Existing and planned drainage patterns (including off-site areas that drain through property)
- Size and location of culverts and sewers
- Design calculations for peak discharges of runoff (Q-10)
- Design calculations and construction details for culverts and storm sewers
- Design calculations, cross sections, and method of stabilization of planned channels (include temporary lines)
- Design calculations and construction details of energy dissipators below culverts and storm sewer outlets (for rip rap aprons, include stone size, diameters and apron dimensions)
- Names of receiving watercourses
